

SECJ2203: Software Engineering System Documentation (SD)

Koperasi Kakitangan KADA (KKK) Online System

Version 2.0

13/2/2025

Faculty of Computing

Prepared by:

Chua Jia Lin

Goe Jie Ying

Lam Yoke Yu

Tan Yi Ya

Teh Ru Qian

Revision Page

a. Overview

The current version of the KKK Online System is to improve cooperative procedures such as member registration, loan application management, administrative tasks, approval tracking and financial reporting. By digitising manual processes and enabling online registration, loan applications and approval tracking, it improves accessibility and efficiency. Board members look over and approve applications, while administrators manage data and policies.

b. Target Audience

The System Documentation is designed for system developers, administrators and technical support teams that are responsible for implementing, maintaining and troubleshooting the KKK online system. It is also created for board members and other stakeholders who require a high-level understanding of the system's operations and procedures in order for management and decision-making.

c. Project Team Members

1. Introduction

1.1 Purpose

The purpose of this System Document is to describe the KKK Online System. This document describes and defines the user interface, functions, performance, security and quality requirements for developing the system.

This document is intended for the development team, including but not limited to designers, developers, project managers, end-user, test and managers.

1.2 Scope

The software product to be produced is KKK Online System. The system functions as an online medium to handle various actions such as member registration, service tracking, administrative management and data reporting. The KKK Online System includes functionality of:

1. New Member Registration

The new member can apply for cooperative membership using online application form, which reduces paperwork and enables remote access.

2. Loan Application Management

The loan application can be submitted through the online system, allowing applicants to track their application status online.

3. Administrator Controls

Administrators manage member data, prepare applications for board review, and update system policy.

4. Approval Process

The system allows applications to be reviewed for board meetings, where directors review and make approval decisions that administrators then enter into the system.

5. Financial Reporting

The system generates monthly and annual reports from stored data, aiding the cooperative in evaluating its financial and operational performance from time to time.

The system does not include the following functionality:

1. Transaction into or out of user account
2. Generate monthly profit and loss report

The KKK Online System should ease the process of applying for membership, loan and other relevant processes by taking away the burden of travelling physically to carry out the action. By digitising previously manual processes, the system aims to enhance data security, improve efficiency and accessibility for all stakeholders, including new applicants, members, administrators, and board members. The system should have different functions based on user roles, and support multiple end devices such as desktop and mobile platforms, to allow accessibility across various devices.

1.3 Definitions, Acronyms and Abbreviation

This section provides the definitions of all terms, acronyms, and abbreviations required to interpret this System Documentation.

KADA	<i>Lembaga Kemajuan Pertanian Kemubu</i>
KKK	<i>Koperasi Kakitangan KADA Kelantan Berhad.</i>
SD	<i>System Documentation</i>

1.5 Overview

The remainder of this SD includes the following:

- A description of Persona that specifies the characteristics and needs of the intended user of the KKK system in general.
- System features with supporting diagrams to push the understanding further, for example use case diagram, class diagram and state diagram.
- Product backlog that plans each sprint according to the use case diagram, assigning each team member.
- A detailed description of the user story for each use case, simulating different scenarios of user story, specifying the user needs further with supporting diagrams.
- Non-functional requirements that declare the characteristics or qualities of the system, to describe the behaviour and the operation norm of the system.
- Design constraints defined by the stakeholders.
- Architectural design that describes the architecture selected and the rationale of the choice.
- Architectural view of the system including use case view, development view, logical

view, process view and physical view.

- Data design that details the entities and attributes of the system.
- User interface design that shows the look of the system and how the expected goals can be achieved and information displayed for the user.
- Traceability that provided cross-reference that links user story to the package and sprints.
- Test case that details the input and expected outcomes designed to assess the functionality and behavior of the specific feature.
- Traceability matrix that extends from the traceability section by including cross reference to sequence diagram and test cases.

2. Specific Requirements

This section outlines the software requirements in detail in order to guide the process of design, development, and testing. By describing all required inputs, outputs, and functionality in specifics, it ensures that the system satisfies the needs of users and stakeholders.

2.1 User characteristics

There are two main users of the system, namely users or members and administrators. The members can be divided into two, which are the new users and the existing members.

2.1.1 User / Member

- The users who will use the software are expected to have basic computer skills, including familiarity with web applications.
- They may have varying levels of computer literacy, due to the wide range of user age.
- They will use the software to make member applications, loan applications and view their financial status.

2.1.2 Admin

- The admin who will use the software are expected to have basic computer skills, including familiarity with web applications.
- They may have varying levels of technical expertise, but will receive training on how to use the software.
- They will use the software to complete administrative tasks to update the member's financial status, application status, and maintain the website.

2.2 System Features

KKK Online System is a web-based software. The system provided a means for the KKK members and staff to better manage the member application and loan application. For KADA employees that intend to be a member of the cooperative, the system allows them to apply for membership. It also has other features such as updating user profile, viewing financial status, generating reports, recording transactions and updating policies and banners.

The system features are illustrated in Figure 2.1 below. The detailed description of each module and functions is tabulated in Table 2.1.

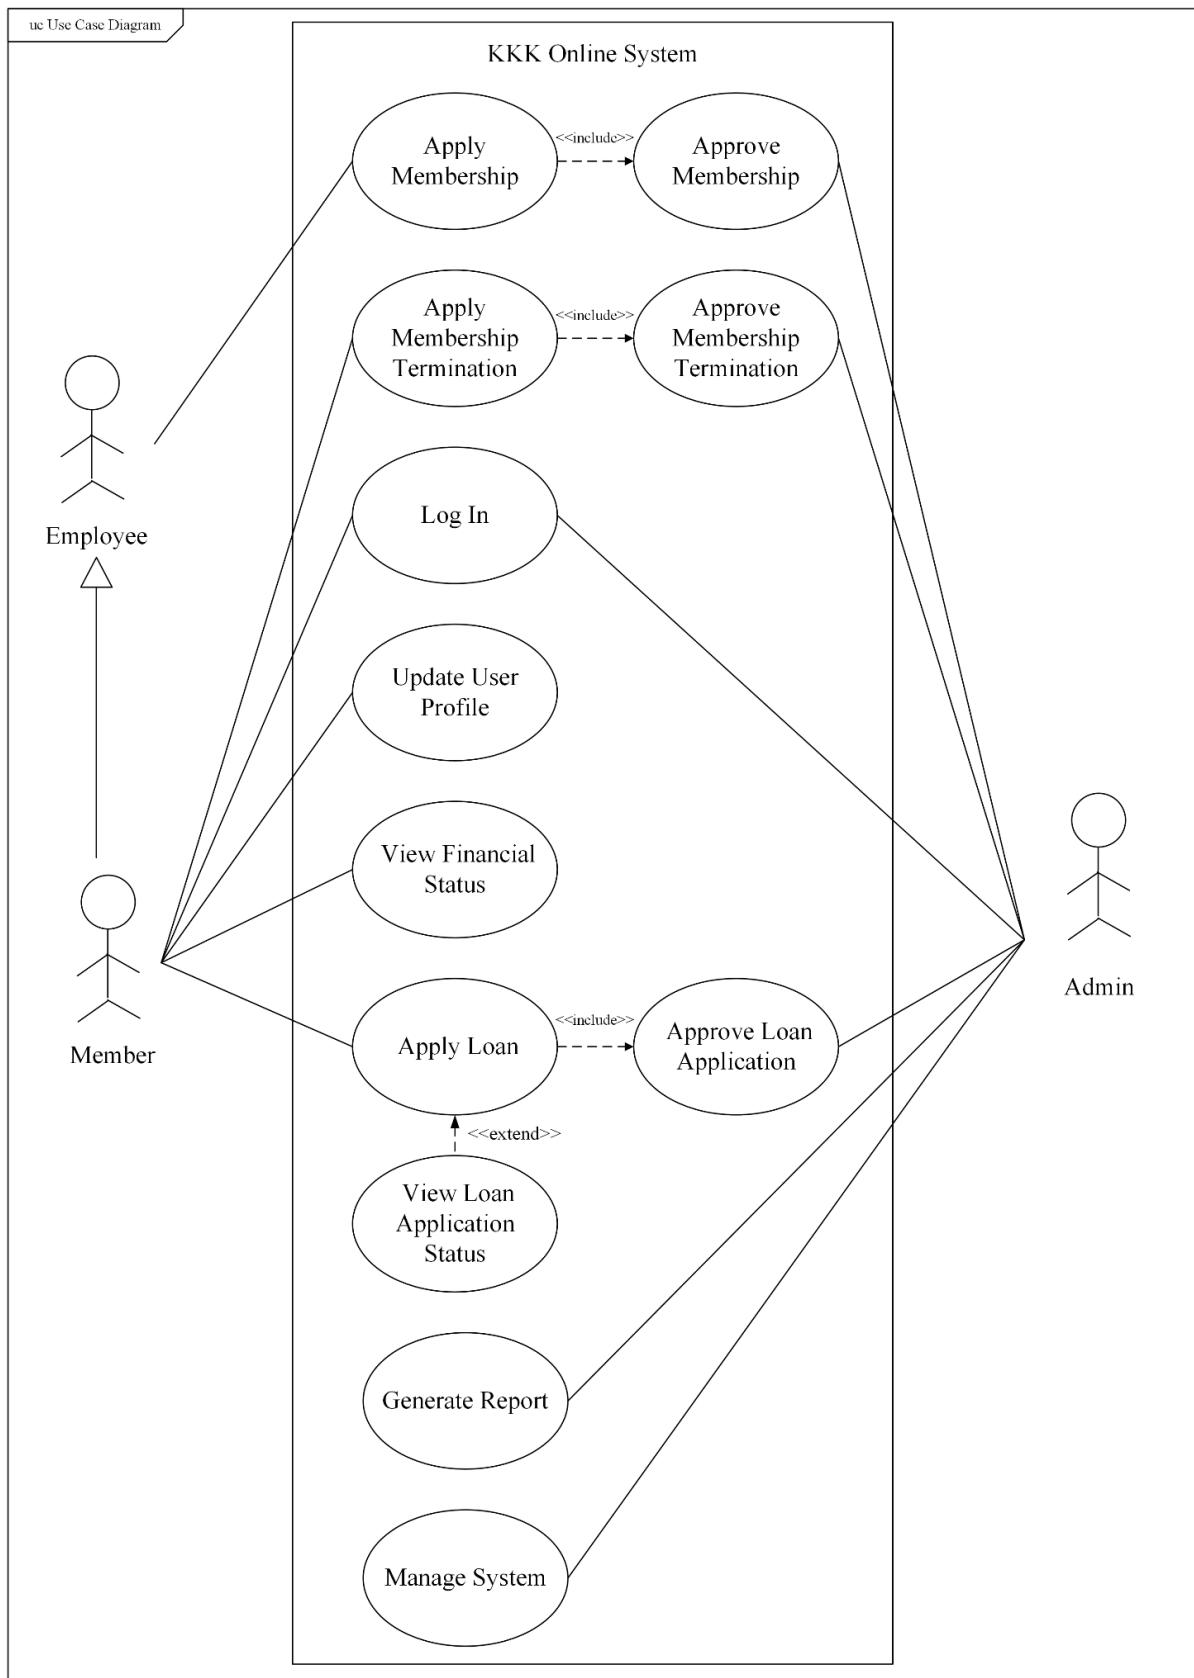

Figure 2.1 Use Case Diagram for KKK Online System

Table 2.1: Description of Module and Functions for KKK Online System

Use Case	Function	Description
UC01	Apply Membership	The employees in KADA can apply to be a member of the KKK cooperative by filling in the online form and upload any required documents.
UC02	Update User Profile	The cooperative members can update their user personal information, and the family and inheritor information.
UC03	Log In	The cooperative member and the administrator can log in the system by using the correct login credentials. The members will then be directed to the member's page and the administrator will be directed to the administrator's page.
UC04	View Financial Status	Upon log in to the system, the cooperative member would be able to view their financial status including the share information (Maklumat Saham Ahli) and the loan information (Maklumat Pinjaman Ahli).
UC05	Apply Loan	The cooperative members can apply for financing services from the cooperative by filling in the online form and upload any required documents.
UC06	View Loan Application Status	Upon the loan application submission, they would be able to see their application status through the system.
UC07	Apply Membership Termination	The cooperative members can apply for membership termination and after that the member will no longer be a cooperative member.
UC08	Approve Membership	The admin would be able to update the status of the membership application.
UC09	Approve Loan Application	The admin would be able to update the status of the loan application.
UC10	Generate Report	The admin can generate monthly and annual reports that summarise the financial and membership information.

UC11	Manage System	<p>The admin may be able to do other administrative tasks that are necessary to maintain the system.</p> <p>After a transaction settled between the stakeholders, the admin would update the transaction in the system to reflect the transaction in the member profile. This includes updating the amount of share capital, funds, contributions and loans.</p> <p>Besides, the administrator would be able to update policies such as the minimum membership, minimum share capital requirement for loan application, loan interest rate, maximum loan repayment duration and maximum financing amount.</p> <p>The administrator can also update the website banner. This ensures the sustainability of the system.</p>
UC12	Approve Membership Termination	<p>The admin would be able to update the status of the membership termination application.</p>

The domain model of the KKK Online System is illustrated in Figure 2.2 below and described in Table 2.2.

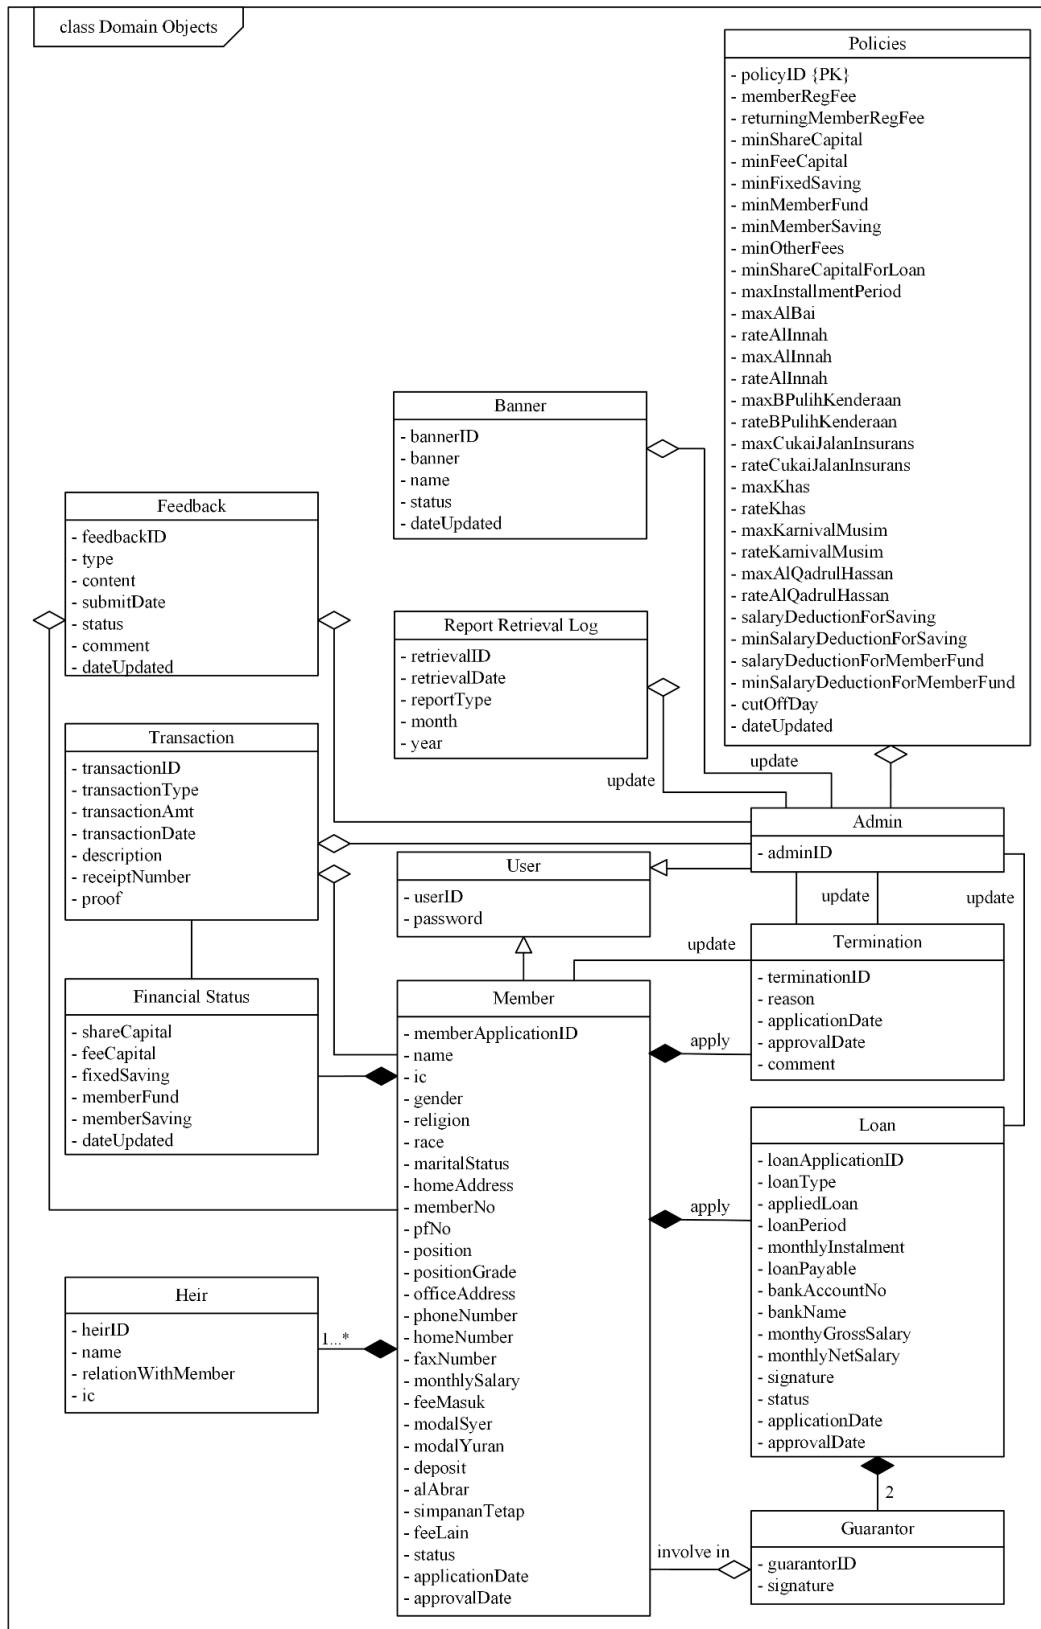

Figure 2.2: Domain Model for KKK Online System

Table 2.2: Description of Classes for KKK Online System

Class	Description
User Class	<p>Represents all users that use the system. The information in this class will act as login credentials to the system.</p> <ul style="list-style-type: none"> • userID: A unique identifier for user • password: Password to login to the system
Member Class	<p>Represents a person registered in the system as a member. As a user applies for a member, an object of the member is created.</p> <p>The <i>Member</i> class is inherited from the <i>User</i> class. A member whose status is accepted would be eligible to apply for a loan.</p> <ul style="list-style-type: none"> • memberApplicationID: A unique identifier for membership application. • name: Name of the member. • ic: Identity card (MyKad) number of the member. • gender: Gender of the member. This attribute is an enumeration with the values Male (Lelaki) and Female (Perempuan). • religion: Religion of the member. This attribute is an enumeration with the values Islam, Buddhism (Buddha), Hinduism (Hindu), Christianity (Kristian) and Others (Lain-lain). • race: Race of the members. This attribute is an enumeration with the values Malay (Melayu), Chinese (Cina), Indian (India) and Others (Lain-lain). • maritalStatus: Marital status of the member. • homeAddress: Address of the member. • memberNo: Member number of the member. The member number would be available as the application is approved. • pfNo: PF number of the member. • position: Position held by the member. • positionGrade: Position grade of the member. • officeAddress: Address of the member on duty. • phoneNumber: Phone number of the member. • homeNumber: Home number of the member. • monthlySalary: Monthly salary of the member with the currency of RM. • feeMasuk: The member application fee (Fee Masuk) in RM, that the member shall pay if the member application is approved. • modalSyer: The share capital (Modah Syer) in RM, that the member shall buy if the member application is approved. • modalYuran: The fee capital (Modal Yuran) in RM, that the member shall pay if the member application is approved. • deposit: The fixed saving or fixed deposit (Wang Deposit Anggota) in RM, that the member would like to deposit. • alAbrar: The member fund contribution (Sumbangan Tabung Kebajikan) in RM, that the member would like to contribute each month from their salary.

	<ul style="list-style-type: none"> • simpananTetap: The member saving (Simpanan Tetap) in RM, that the member would like to save each month from their salary. • feeLain: The other fee (Lain-lain) in RM, that the member shall pay if the member application is approved. • status: Application status of the member. This attribute is an enumeration with the values Processing (Sedang Diproses), Rejected (Ditolak), Accepted (Dilulus) and Pension (Pencen) and Terminated (Berhenti). • applicationDate: Date when the application is submitted. • approvalDate: Date when the application is approved.. • adminID: A unique identifier for the admin who updated the result of member application.
Heir Class	<p>Represents an heir (pewaris) for a member.</p> <p>The Heir class is a composition of the <i>Member</i> class. The relation is one to many relation, where a member can have one or more heirs.</p> <ul style="list-style-type: none"> • heirID: A unique identifier for the heir. • name: Name of the heir. • relationshipWithMember: Relationship of the heir with associated the member. • ic: Identity card (MyKad) number of the heir.
Financial Status Class	<p>Represents the financial status of the associated member.</p> <p>The <i>Financial Status</i> class is a composition of the <i>Member</i> class. The relationship is a one to one relationship.</p> <ul style="list-style-type: none"> • shareCapital: Share capital (Modah Syer) of the associated member with the currency of RM. • feeCapital: Fee Capital (Modal Yuran) of the associated member with the currency of RM. • fixedSaving: Fixes Saving or Fixed Deposit (Simpanan Tetap) of the associated member with the currency of RM. • memberFund: Member Fund (Tabung Anggota) of the associated member with the currency of RM. • memberSaving: Member Saving (Simpanan Anggota) of the associated member with the currency of RM. • dateUpdated: The last date of the financial status is updated. The update is made by the admin and detailed in the Transaction class.
Loan Class	<p>Represents the loan application applied by the associated member.</p> <p>A member of the cooperative fulfilling the minimum share capital would be able to apply for loans.</p> <ul style="list-style-type: none"> • loanApplicationID: A unique identifier for the loan application. • loanType: The type of loan applied by the member. This attribute is an enumeration with the values Al-Bai, Al-Innah, Baik Pulih Kenderaan, Road Tax and Insurance, Special Scheme (Khas),

	<p>Special Season Carnival (Karnival Musim Istimewa) and Al-Qadrul Hassan.</p> <ul style="list-style-type: none"> ● appliedLoan: The amount of loan applied by the member in RM. ● loanPeriod: The instalment period of the applied loan. ● monthlyInstalment: The monthly instalment amount of the applied loan in RM. ● loanPayable: The remaining loan in RM, that the member has to repay. The amount will be updated every month after salary deduction. ● bankAccountNo: The bank account number of the applicant. ● bankName: The bank associated with the bank account number provided. ● monthlyGrossSalary: The monthly gross salary of the applicant in RM. ● monthlyNetSalary: The monthly net salary of the applicant in RM. ● signature: The reference to the uploaded acknowledgement form with the signature of the applicant's employer. ● status: Application status of the member. This attribute is an enumeration with the values Processing (Sedang Diproses), Rejected (Ditolak), Accepted (Diterima) and Cleared (Dijelaskan). ● applicationDate: Date when the application is submitted. ● approvalDate: Date when the application is approved.. ● adminID: A unique identifier for the admin.
Guarantor Class	<p>Represents a guarantor for the loan application.</p> <p>The <i>Guarantor</i> class is a composition of the <i>Loan Application</i> class, where there must be two guarantors for each application. At the same time. The <i>Guarantor</i> class is associated with the <i>Member</i> class, where the guarantor has to be a member.</p> <ul style="list-style-type: none"> ● guarantorID: A unique identifier for the guarantor application. ● memberNo: The member number of the guarantor. ● signature: The reference to the uploaded acknowledgement form with the signature of the applicant's employer.
Termination Class	<p>Represents the record for member termination.</p> <p>A member of the cooperative who does not have debts with the cooperative would be able to apply for loans.</p> <ul style="list-style-type: none"> ● terminationID: A unique identifier for membership termination that was filled by the member. ● reason: A description of reason. ● applicationDate: Date when the application is submitted. ● approvalDate: Date when the application is approved. ● comment: Comment of the admin. ● adminID: A unique identifier for the admin.
Admin Class	Represents a person registered in the system as an admin.

	<p>The <i>Admin</i> class is inherited from the <i>User</i> class. The adminID would be the same as the userID. An admin would be able to update the status of the <i>Member</i> class, <i>Loan</i> class, <i>Policies</i> class, <i>Transaction</i> class and <i>Banner</i> class.</p> <ul style="list-style-type: none"> ● adminID: A unique identifier for the admin.
Report Retrieval Log Class	<p>The class records the details of report retrieval. This serves as a record for tracking and auditing purposes.</p> <p>This class is associated with the Admin class and Report class. The aggregation between the Admin class and the Report Retrieval Log class specifies the admin who retrieves the report. While the aggregation between the Report class specifies the report that is retrieved.</p> <ul style="list-style-type: none"> ● retrievalID: A unique identifier for the report. ● retrievalDate: Date when the report is retrieved. ● reportType: The type of report. This attribute is an enumeration with the values Monthly (Bulanan) and Annually (Tahunan). ● month: Month of the report. The value ranged from 0 to 12. If this is an annual report, it will be represented by 0. ● year: Year of the report.
Banner Class	<p>The class records the details of website banner updates. This serves as a record for tracking purposes.</p> <p>This class is associated with the Admin class. The aggregation between the Admin class and the Banner Update Log class specifies the admin who updated the banner.</p> <ul style="list-style-type: none"> ● bannerID: A unique identifier for the uploaded banner. ● banner: The path reference to the uploaded banner. ● name: The name of the banner uploaded. ● status: The status of the banner, either active or inactive. ● dateUpdated: Date when the banner is updated.
Policies Class	<p>Represents the policies that validates the input for the system.</p> <ul style="list-style-type: none"> ● policyID: A unique identifier for the policy. ● memberRegFee: The registration fee (Fee Masuk) in RM, that should be paid by the applicant once approved to be a member. ● returningMemberRegFee: The registration fee (Fee Masuk) in RM, that should be paid by the applicant, if the member has been a member previously, once approved to be a member. ● minShareCapital: Minimum share capital (Modah Syer Minimum) for a member in RM. ● minFeeCapital: Minimum fee capital (Modal Yuran Minimum) in RM. ● minFixedSaving: Minimum fixed saving or fixed deposit (Wang Deposit Anggota Minimum) in RM. ● minMemberFund: Minimum member fund contribution (Sumbangan Tabung Kebajikan Minimum) in RM.

- minMemberSaving: Minimum member savings (Simpanan Tetap Minimum) in RM.
- minOtherFees: Minimum amount of other fee (Lain-lain) in RM.
- minShareCapitalForLoan: Minimum share capital (Modah Syer Minimum) for a member in RM.
- maxInstalmentPeriod: Maximum loan instalment period (Tempoh Ansuran Maksima) in months.
- maxAlBai: Maximum financing amount (Jumlah Pembiayaan Maksimum) for loan type Al-Bai in RM.
- rateAlBai: Profit rate or interest rate (Kadar Keuntungan) for Al-Bai loan type in percentage.
- maxAlInnah: Maximum financing amount (Jumlah Pembiayaan Maksimum) for loan type Al-Innah in RM.
- rateAlInnah: Profit rate or interest rate (Kadar Keuntungan) for Al-Innah loan type in percentage.
- maxBPulihKenderaan: Maximum financing amount (Jumlah Pembiayaan Maksimum) for loan type Vehicle Overhaul in RM.
- rateBPulihKenderaan: Profit rate or interest rate (Kadar Keuntungan) for Vehicle Overhaul loan type in percentage.
- maxCukaiJalanInsurans: Maximum financing amount (Jumlah Pembiayaan Maksimum) for loan type Road Tax and Insurance in RM.
- rateCukaiJalanInsurans: Profit rate or interest rate (Kadar Keuntungan) for Road Tax and Insurance loan type in percentage.
- maxKhas: Maximum financing amount (Jumlah Pembiayaan Maksimum) for loan type Special Scheme in RM.
- rateKhas: Profit rate or interest rate (Kadar Keuntungan) for Special Scheme loan type in percentage.
- maxKarnivalMusim: Maximum financing amount (Jumlah Pembiayaan Maksimum) for loan type Special Season Carnival (Karnival Musim Istimewa) in RM.
- rateKarnivalMusim: Profit rate or interest rate (Kadar Keuntungan) for Special Season Carnival (Karnival Musim Istimewa) loan type in percentage.
- maxAlQadrulHassan: Maximum financing amount (Jumlah Pembiayaan Maksimum) for loan type Al-Qadrul Hassan in RM.
- rateAlQadrulHassan: Profit rate or interest rate (Kadar Keuntungan) for Al-Qadrul Hassan loan type in percentage.
- salaryDeductionForSaving: Monthly Salary Deduction Amount for Saving (Potongan Gaji Bulanan untuk Simpanan Tetap) in RM.
- minSalaryDeductionForSaving: Minimum monthly Salary Deduction Amount for Saving (Potongan Gaji Bulanan untuk Simpanan Tetap) that a member can set in RM.
- salaryDeductionForMemberFund: Monthly Salary Deduction Amount for Member Fund (Potongan Gaji Bulanan untuk Tabung Kebajikan) in RM.

	<ul style="list-style-type: none"> • minSalaryDeductionForMemberFund: Minimum Monthly Salary Deduction Amount for Member Fund (Potongan Gaji Bulanan untuk Tabung Kebajikan) in RM. • cutOffDay: The cut off day for salary to be deducted for member application and loan application. • dateUpdated: Date when the policy is updated.
Transaction Class	<p>Represent the transaction record. This class also serves as a record for tracking and auditing purposes.</p> <p>This class is associated with the Admin class and the Member class. The aggregation with the Admin class specifies the admin who updated the transaction. The aggregation with the Member class specifies the member whose financial status is being updated.</p> <ul style="list-style-type: none"> • transactionID: A unique identifier for the transaction record. • transactionType: The type of transaction made. This attribute is an enumeration with the values Share Capital (Modah Syer), Fee Capital (Modal Fee), Fixed Saving (Simpanan Tetap), memberFund (Tabung Anggota), memberSaving (Simpanan Anggota), Al-Bai, Al-Innah, Baik Pulih Kenderaan, Road Tax and Insurance, Special Scheme (Khas), Special Season Carnival (Karnival Musim Istimewa) and Al-Qadrul Hassan. • transactionAmt: The amount of the transaction in RM. • transactionDate: Date when the transaction is updated. • description: The description of the transaction. • receiptNumber: The receipt number of the transaction proof. • proof: The path reference to the uploaded proof.

The state diagram shows the states and transitions of an object throughout the system. The *Member* class and the *Loan* class would require a state diagram that shows the transition of application status.

Figure 2.3 shows the state diagram for the *Member* class. Once the user submits the application, the application will be in Processing state. After the meeting with the Board of Directors, the result of the application will be updated to either Approve state or Rejected state. As the application is approved, the applicant will be a member of the cooperative. If the member would like to quit the cooperative, the member can apply for membership termination. After approval, the member will be in the Terminated state. If the member retired, the member will be moved to Pension status. A member that is under the Pension status can also apply for termination or moved to termination status if the member passed away.

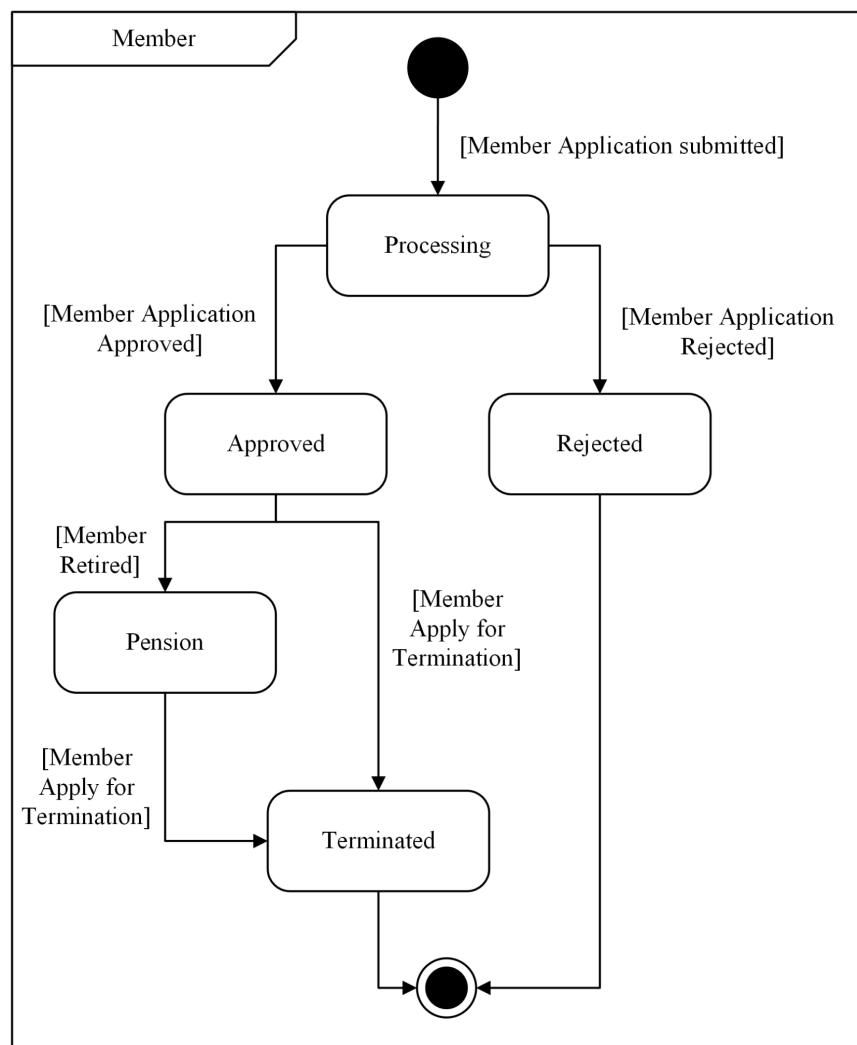

Figure 2.3: State Machine Diagram for Member Class

Figure 2.4 shows the state diagram for the Loan class. Once the user submits the application, the application will be in Processing state. After the meeting with the Board of Directors, the result of the application will be updated to either Approve state or Rejected state. If the loan is approved, the member shall repay the loan by monthly installments or pay directly to the cooperative until the debt is cleared.

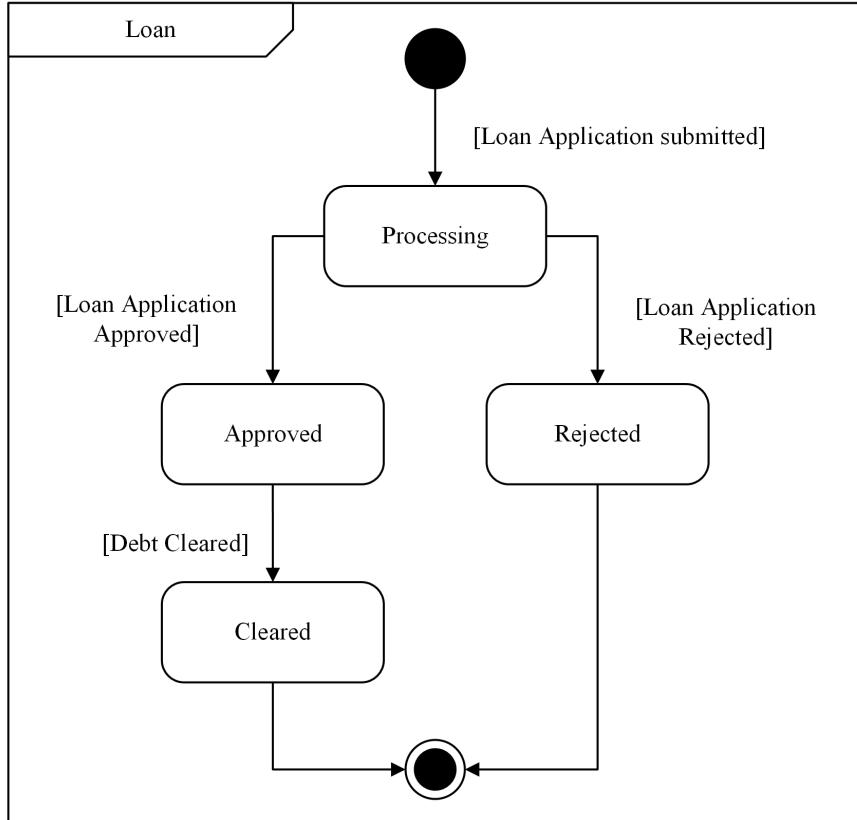

Figure 2.4: State Machine Diagram for Member Class

2.3 Launch Phase

The product backlog lists the parts and modules for the project according to the priorities. Table 1.2 shows the product backlog for the KKK Online System.

Table 1.2 Product Backlog for the KKK Online System

Sprint	Use Case Involved	Team Members Assigned
Sprint 1 User Module	UC01 Apply Membership (US01) UC03 Log In (US06)	Tan Yi Ya
	UC02 Update User Profile (US02)	Chua Jia Lin
Sprint 2 Member Module	UC04 View Financial Status (US03)	Chua Jia Lin
	UC05 Apply Loan (US04) UC06 View Loan Application Status (US05)	Teh Ru Qian

	UC07 Apply Membership Termination (US07)	Chua Jia Lin
Sprint 3 Admin Approve Module	UC08 Approve Membership (US08) UC09 Approve Loan Application (US09) UC12 Approve Membership Termination (US12)	Goe Jie Ying
Sprint 4 Admin Module	UC10 Generate Report (US10)	Teh Ru Qian
	UC11 Manage System (US11)	Lam Yoke Yu

2.4 User Story Details

This section outlines the user's goals and expectations for the system, focusing on the required actions. It defines the user story's scope, flow of events, sequence diagram, and activity diagram to ensure the system effectively meets the user's needs.

2.4.1 US01 User Story KADA Employee Apply Membership

Table 2.1 shows the user story description, followed by the sequence diagram in Figure 2.1 and the activity diagram in Figure 2.2.

Table 2.1: User Story Description for KADA Employee Apply Membership

User story:KADA Employee Apply Membership
ID: US01
User Story Description: As a KADA employee I want to register myself as a new member of the cooperative So that I can access the benefits provided by the cooperative
Flow of events: <ol style="list-style-type: none"> 1. The employee accesses the system through the website. 2. The employee chooses to register as a member. 3. The employee inputs all the required details. 4. The system presents the “Akuan Kebenaran” statement and the employee agrees by ticking the confirmation box. 5. The employee submits the application for review.
Alternative flow: <ol style="list-style-type: none"> 1. If incomplete details are provided, the system prompts the employee to fill in the missing fields before proceeding. 2. If the application is being rejected, the member cannot log into the system.

Acceptance Criteria:

Precondition:

1. The applicant must be a current employee of KADA.

Postcondition:

1. If the application is approved, the employee becomes a registered member of KKK and can access the benefits provided.
2. If the application is rejected, the employee will not be able to log into the system.
3. The system stores the accepted employee's data in the database

Exception flow:

If an error occurs while updating the information, the system prompts the employee to try again later.

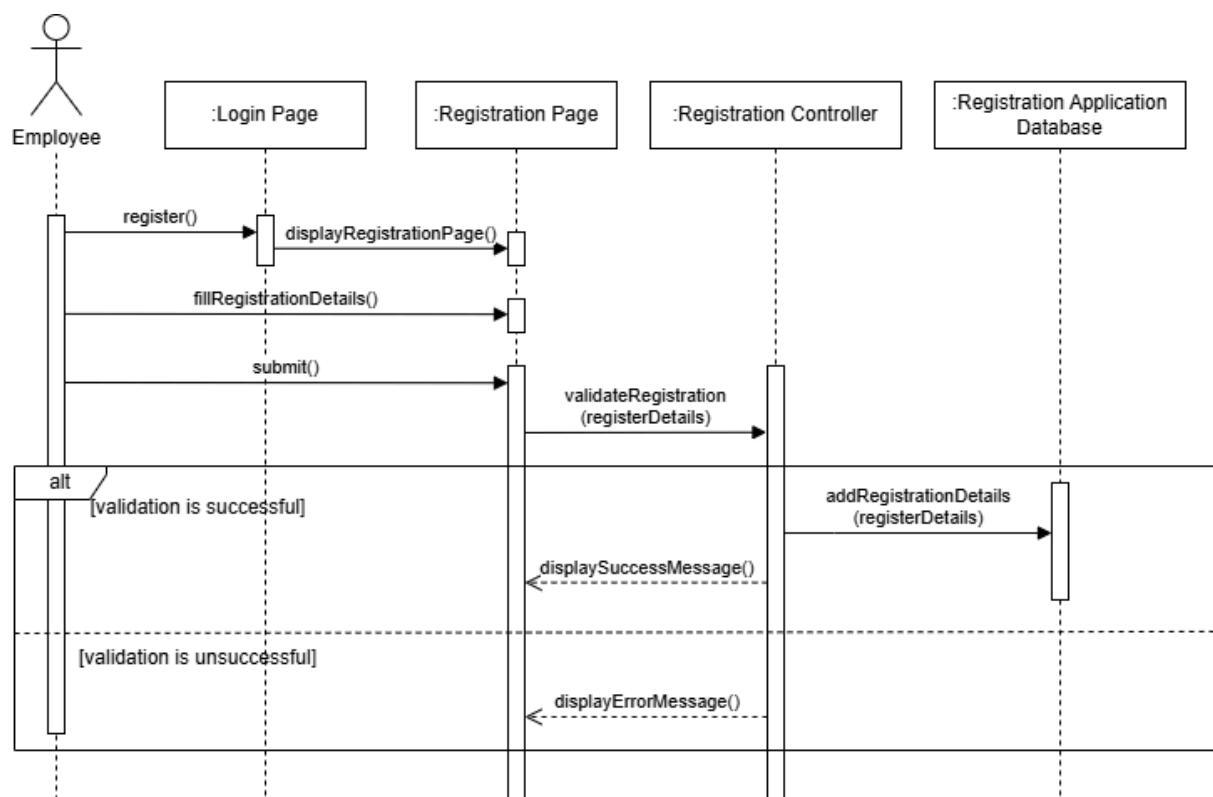

Figure 2.1: Sequence Diagram for KADA Employee Apply Membership

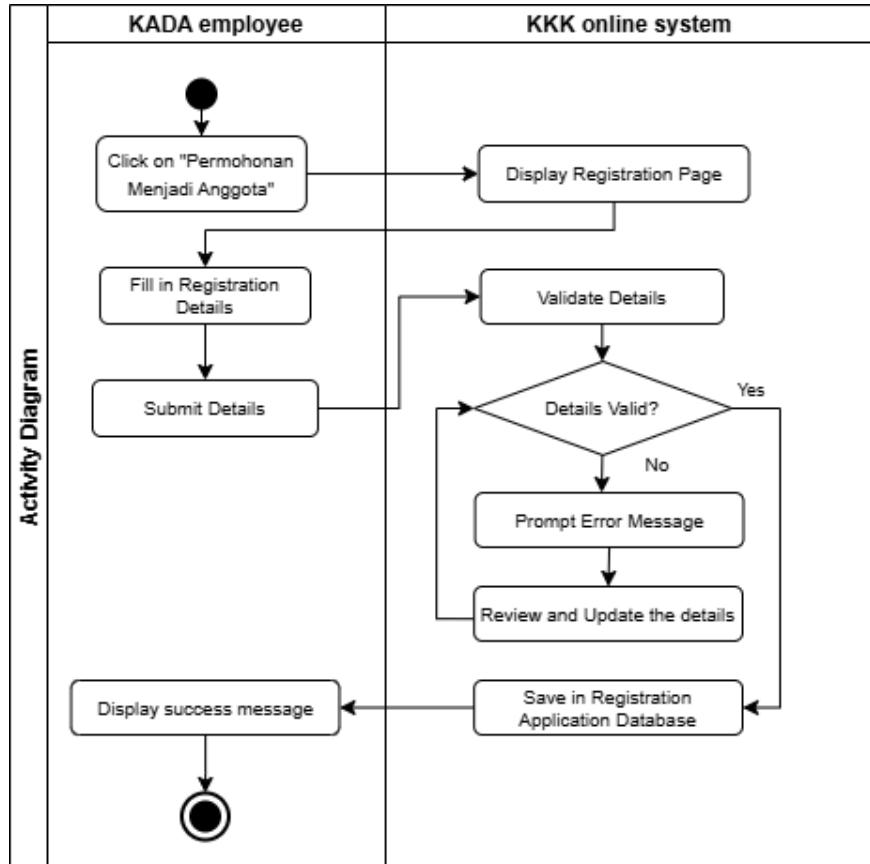

Figure 2.2: Activity Diagram for KADA Employee Apply Membership

2.4.2 US02 User Story Member Update User Profile

Table 2.2 shows the user story description, followed by the sequence diagram in Figure 2.3 and the activity diagram in Figure 2.4.

Table 2.2: User Story Description for Member Update User Profile

User story:Member Update User Profile
ID: US02
<p>User Story Description: As a registered KKK member I want to view and verify my personal details So that I can ensure my information is accurate</p>
<p>Flow of events:</p> <ol style="list-style-type: none"> 1. The employee logs into the KKK system. 2. The employee navigates to the "Profil" section. 3. The employee reviews the personal and family details for accuracy.
<p>Alternative flow: If there are errors in the information, the employee clicks "Kemaskini" to update the information and clicks "Simpan" to save the changes.</p>

Acceptance Criteria:

Precondition:

1. The employee is logged into the system.
2. The employee information is available in the system.

Postcondition:

1. The employee has verified or updated their personal details.

Exception flow:

If an error occurs while updating the information, the system prompts the employee to try again later.

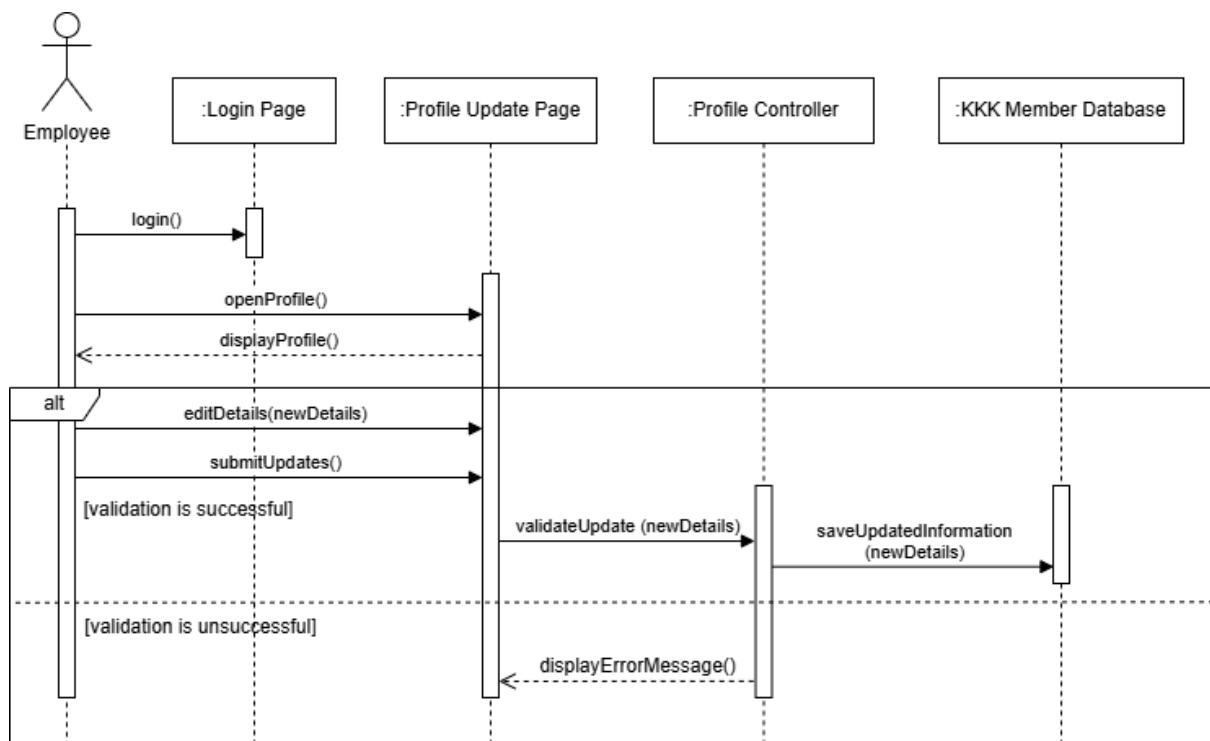

Figure 2.3: Sequence Diagram for Member Update User Profile

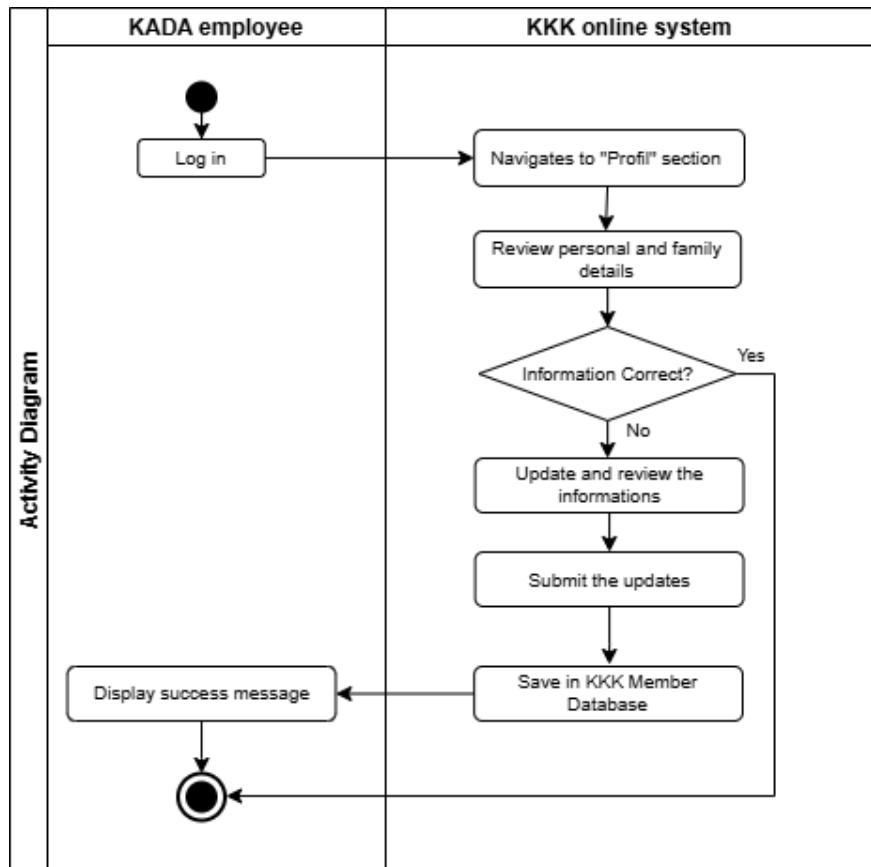

Figure 2.4: Activity Diagram for Member Update User Profile

2.4.3 US03 User Story Member View Financial Status

Table 2.3 shows the user story description, followed by the sequence diagram in Figure 2.5 and the activity diagram in Figure 2.6.

Table 2.3: User Story Description for Member View Financial Status

User story: Member View Financial Status
ID: US03
User Story Description: As a registered KKK member I want to view and verify my financial information So that I can know about my current financial status
Flow of events: 1. The employee logs into the KKK system. 2. The employee reviews the financial information displayed on the main page.
Alternative flow: -

Acceptance Criteria:

Precondition:

1. The employee is logged into the system.
2. The employee information is available in the system.

Postcondition:

1. The employee successfully views their current share information.

Exception flow:

The employee successfully views their current financial information.

Table 2.5 shows the user story description, followed by the sequence diagram in Figure 2.9 and the activity diagram in Figure 2.10.

Table 2.5: User Story Description for Member View Loan Application Status

User story: Member View Loan Application Status
ID: US05
User Story Description: As a KKK member I want to check the status of my loan application So that I know whether it is approved or rejected

Flow of events:

1. The system processes the loan application.
2. Click the “Pinjaman” section.
3. The system displays current loan status, such as “Sedang Diproses”, “Diterima” and “Ditolak”.
4. The system displays loan details, including total amount, repayment schedule and outstanding balance.

Alternative flow:

If no active loan exists, the system displays a message stating no current loans.

Acceptance Criteria:

Precondition:

1. The member has submitted a loan application.

Postcondition:

1. The member is able to view the current loan status and details in the system.

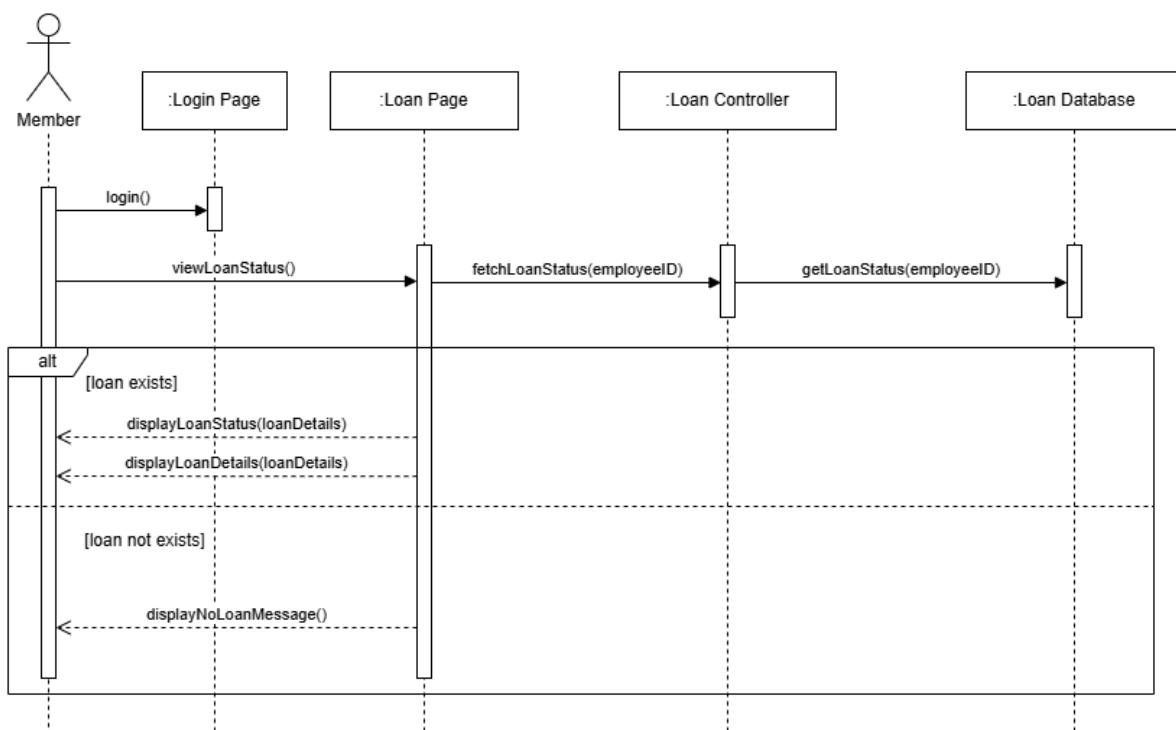

Exception flow: -

Figure 2.9: Sequence Diagram for Member View Loan Application Status

2.4.11 US11 User Story KKK Admin Manage System

Table 2.13 shows the user story description, followed by the sequence diagram in Figure 2.25 and the activity diagram in Figure 2.26.

Table 2.13: User Story Description for KKK Admin Manage System

User story: KKK Admin Manage System
ID: US11
User Story Description: As a KKK admin I want to administer the system So that the information on the system can be updated.

Flow of events:

1. Record Transaction
 - 1.1 Admin navigates to the Record Transaction tab.
 - 1.2 The system displays the list of members.
 - 1.3 Admin searches and selects the member to be updated.
 - 1.4 The system displays the financial status of the member.
 - 1.5 Admin enters the amount to be added or subtracted.
 - 1.6 The system prompts a confirmation message
 - 1.7 Admin clicks “Ok”.
 - 1.8 The system updates the database and the transaction is recorded.
2. Update Policies
 - 2.1 Admin navigates to “Kemaskini Polisi”.
 - 2.2 System displays all policies.
 - 2.3 Admin clicks “Kemaskini” to update the relevant section.
 - 2.4 Admin updates the new values.
 - 2.5 Admin clicks “Simpan”.
 - 2.6 The system prompts a confirmation message.
 - 2.7 The admin clicks “Ok”.
 - 2.8 The system updates the database and the policies are updated.
3. Update Banners
 - 3.1 Admin navigates to “Kemaskini Iklan”.
 - 3.2 Admin uploads a new photo.
 - 3.3 Admin clicks “Kemaskini”.
 - 3.4 System prompts a confirmation message.
 - 3.5 The admin clicks “Ok”.
 - 3.6 The system updates the database and the banners are updated.

Alternative flow:

If “OK” is not selected, the system will not update the database.

Acceptance Criteria:

Precondition:

1. Admin logged in to the system.

Exception flow: -

2.5 Performance and Other Requirements

This section defines the way systems behave or operate, separated from functional requirements. The characteristics and quality attributes are specified such as usability, reliability, performance, security, maintainability, and compatibility.

2.5.1 Software System Attributes

Software system attributes specify the overall qualities or characteristics that are expected to achieve in the system. These attributes are the foundation of the KKK Online System, as stated below:

1. Acceptability: System must be compatible with different operating systems such as Windows, macOS, Linux, and mobile devices like iOS and Android. System must be adaptable with all device types, including workstations, laptops, tablets and smartphones.
2. Correctness: The system must fully meet its requirements specifications, with any deviation from the requirements considered as incorrect.
3. Reliability: Systems should be reliable, failures should be minimised and issues that could lead to software failure should be addressed.
4. Usability: System should be easy to use, be learnable to beginners, convenient, and effective in handling errors.

2.5.2 Performance

This section defines the software system response time of user actions under a certain workload, throughput and resource usage.

1. System shall be able to maintain 99.9% uptime, making it always available for corporate users. Service interruption or temporal shut down such as maintenance or update should be minimised or communicated beforehand.
2. System response time should be at most 1 seconds under normal loads.
3. System should be able to support at least 100 active user sessions at the same time and multiple user sessions should not slow down response time.
4. The system must retrieve member data within 1 second of a search query under normal load with up to 50 concurrent queries.

2.5.3 Other Requirements

Localisation Requirements

- The system is used exclusively for the KKK, and the cooperative is in Malaysia.
- Languages supported: Malay only.
- Date formats: DD/MM/YYYY
- Time zone adjustment: UTC+8
- Currency: Ringgit Malaysia (RM)

2.6 Design Constraints

This section describes the design constraints of the system, which includes security constraints, safety constraints and the business rules that must be adhered to.

2.6.1 Security constraints

This section states the requirements regarding any security or privacy concerns surrounding use of the system and protection of the data used or collected. User identity authentication requirements are defined.

1. The system must have an automated data backup and recovery mechanism to prevent data lost. Regular backup should be scheduled and backup data are stored in a secure, offsite location.
2. Passwords of all users of the system must have a bit strength of at least 64 bit, that is at least 6 characters long and includes a mix of uppercase and lowercase letters, numbers, and special symbols.
3. Wireless communication throughout the system will be encrypted using TLS 1.3 at the application layer and WPA2-Enterprise at the data link layer.
4. The system shall provide two level of access:
 - An administrator level for unrestricted access to all system functionality.
 - A member layer for access to member functionality only.

2.6.2 Safety constraints

This section specifies the requirements that are concerned with possible loss, damage or harm that could result from the usage of the system.

1. System should ensure all personal and financial data collected during membership registration or loan applications is protected against unauthorized access by the General Data Protection Regulation (GDPR) and ISO/IEC 27001 standards.
2. All activities should be logged and able to retrace back, to provision recovery from system failure. All logs must be protected against unauthorised changes, and can only be accessed by authorised personnel for maintenance purposes.
3. The system must be capable of restoring itself to the nearest previous state if an error occurs, for example system crash or a connectivity loss.

2.6.3 Business Rule

This section defines the policies and constraints the system must adhere to, and functions specific to roles that aligns with the organisational practices.

1. Only the admin can modify loan repayment terms and policies.
2. Accessing member personal information is limited to admin authority. System should restrict access to member data by non admin role, except every member is able to view and modify their own personal data.

3. Architectural Rationale

This section describes the chosen architectural style for the KKK Online System, along with the justification for its selection. It also includes the component diagram to illustrate the system's structure.

3.1 Architecture Style and Rationale

Layered architecture has been selected as the KKK Online System's architectural style. The system is divided into separate sections by the layered architecture, including user interface, user interface management, core business logic and data access layer. Each layer can operate independently while communicating with the others through clearly defined interfaces.

The layered architecture ensures that tasks are clearly separated, with the Presentation layer handling the user interface, Business Logic controlling processes, Data Access handling data retrieval and the Database Layer organizing storage. The system is scalable, maintainable and reusable according to its architecture. In addition to supporting desktop, it improves security for sensitive processes such as loan applications and member data by separating the data access layer. Component diagram of this system shown as Figure 3.0.

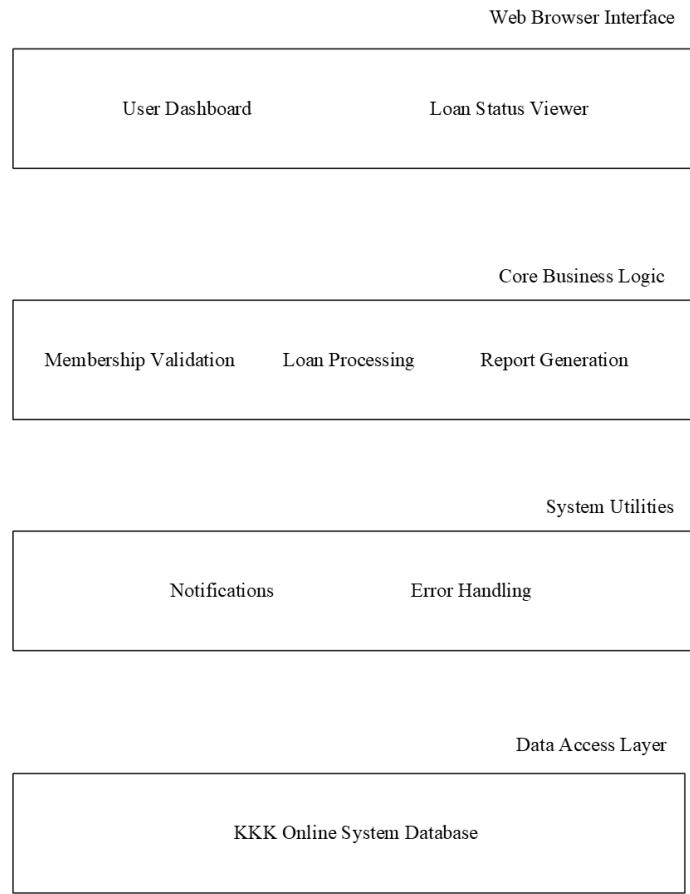

Figure 3.0: Architecture Diagram

4. Architectural Views

This section describes the architectural views of the system based on the 4+1 View Model of Architecture. The views consist of 4 views which are logical view, development view, process view, and physical view. Each view is represented by different diagrams.

Table 4.1 Architectural Views for KKK Online System

Architectural Views	Description	Diagrams used
Use Case View	Elements in four views are coordinated using scenarios in the use cases.	Use Case Diagram
Logical View	Logical View focuses on the system's structure from the developer's view. This view shows the main components of the system in object-oriented design using Class Diagrams.	Class Diagram
Process View	Process view highlights the dynamic aspects of the system, focusing on how the system's components collaborate with each other during runtime by illustrating how the system's processes communicate with each other.	Sequence Diagram
Development View	Development view shows the grouping of the system's software modules in its development environment. It focuses on how the system is broken down into several parts for implementation.	Architecture Diagram Package Diagram
Physical View	Physical View describes how the software system is deployed on the hardware infrastructure, representing its physical architecture. This diagram helps to visualize the relationship between hardware and software, ensuring proper deployment and performance optimization.	Deployment Diagram

4.1 Use Case View

This Use Case View connects with the other 3 views so that the Architecture View of the system is consistent and complete. This view shows the functional requirements of the system using the Use Case Diagram. Figure 4.2 shows the use case diagram of the system.

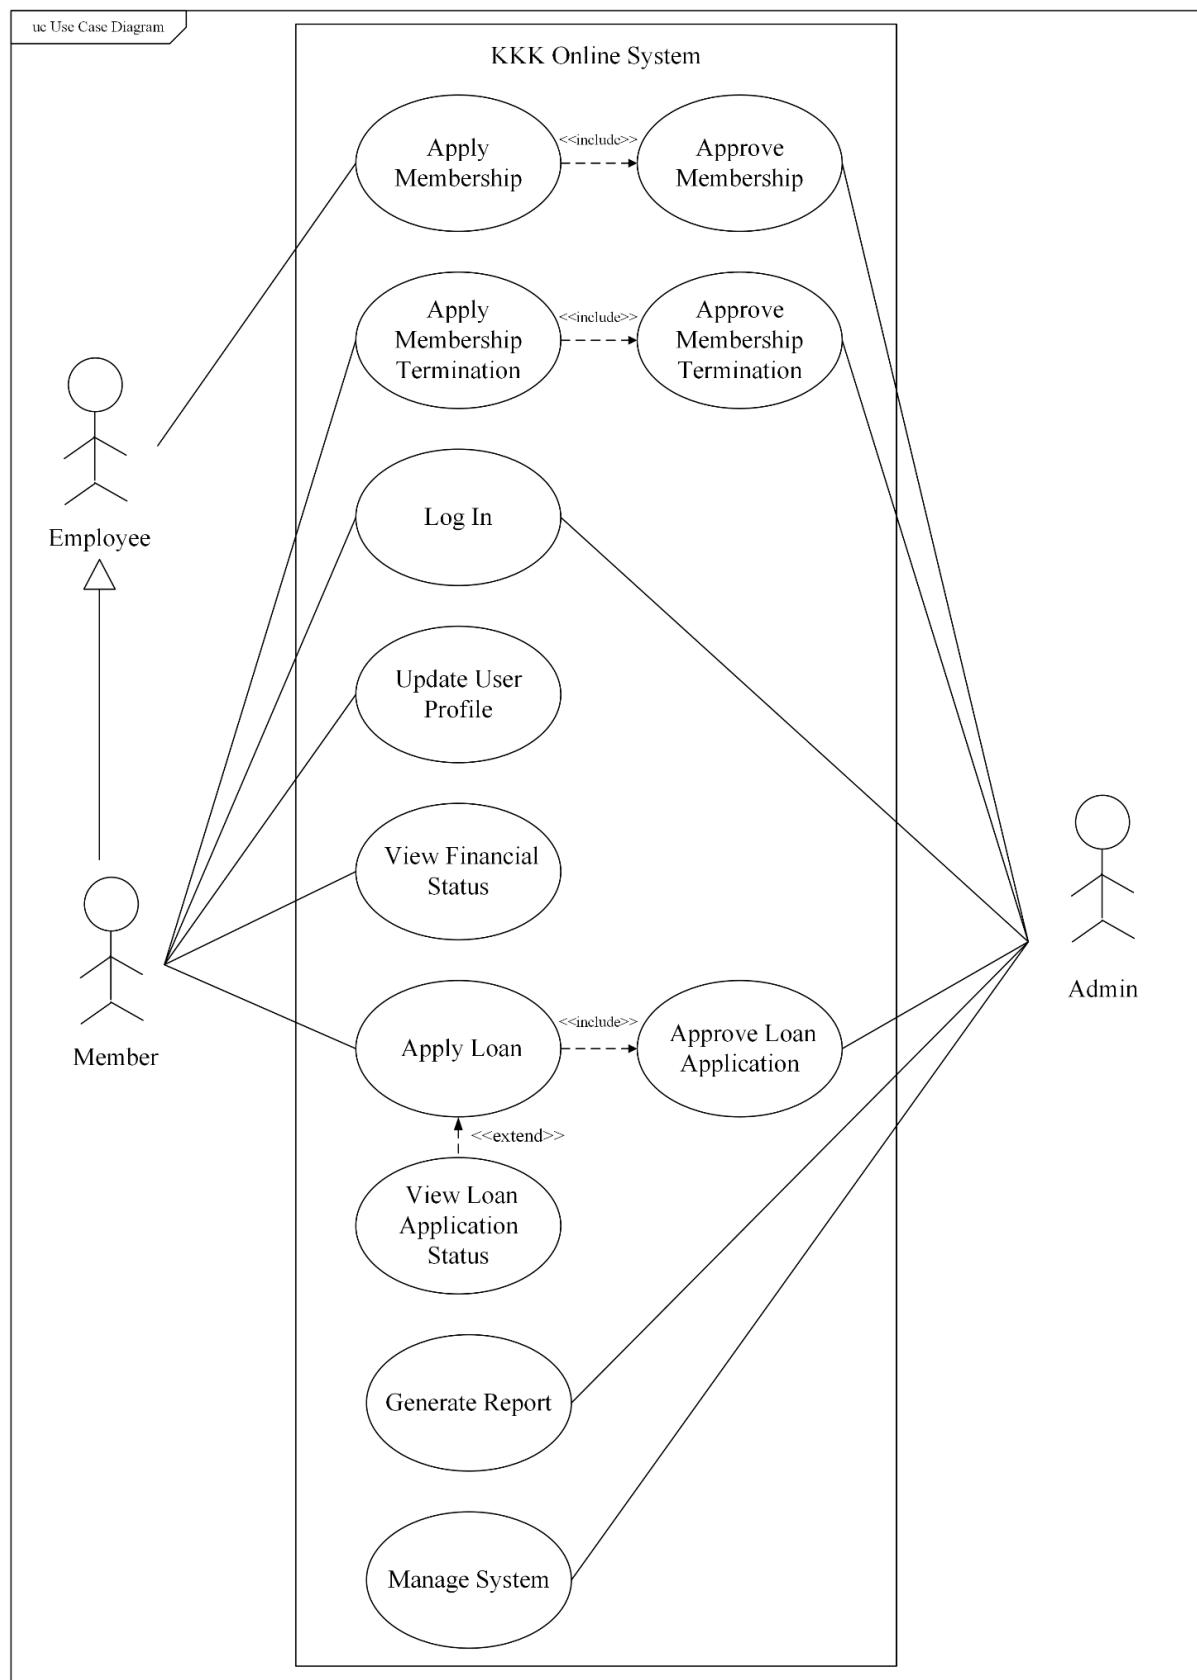

Figure 4.2 Use Case Diagram for KKK Online System

4.2 Development View

This Development View shows the grouping of the system's software modules in its development environment. It focuses on how the system is broken down into several components for implementation.

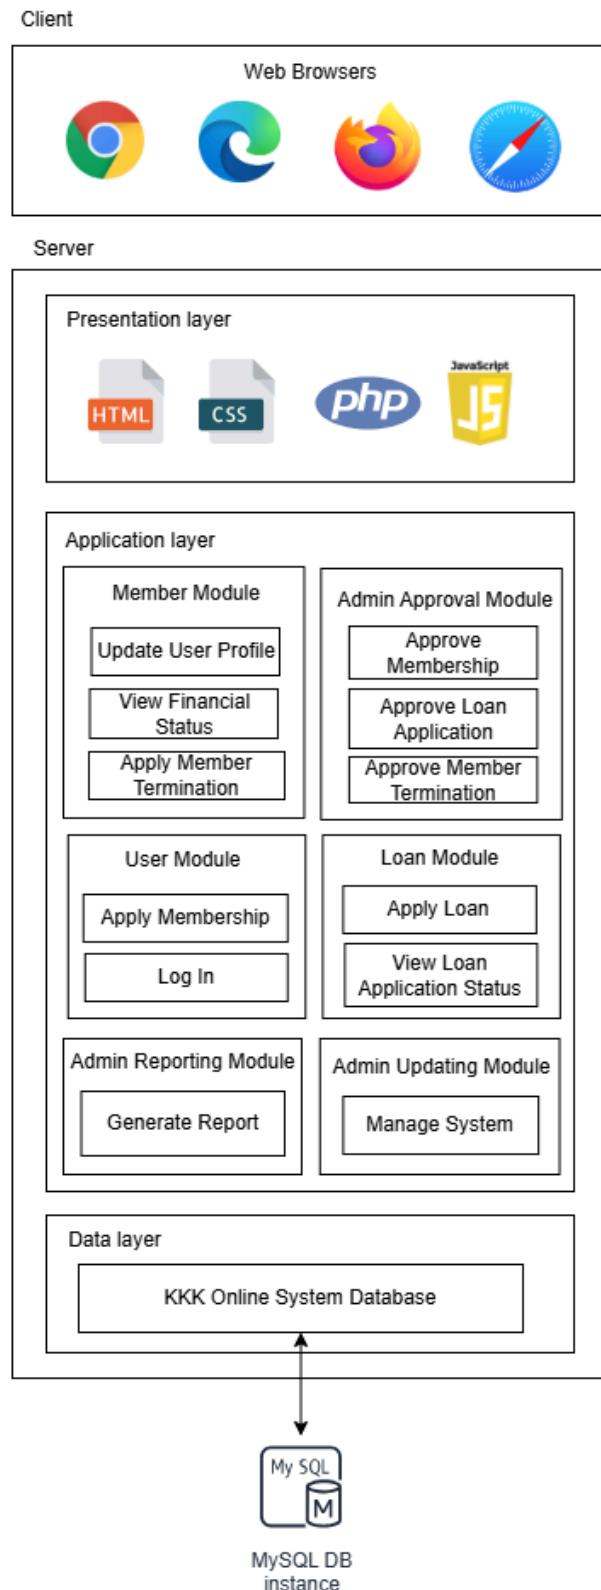

Figure 4.3 Architecture Diagram for KKK Online System

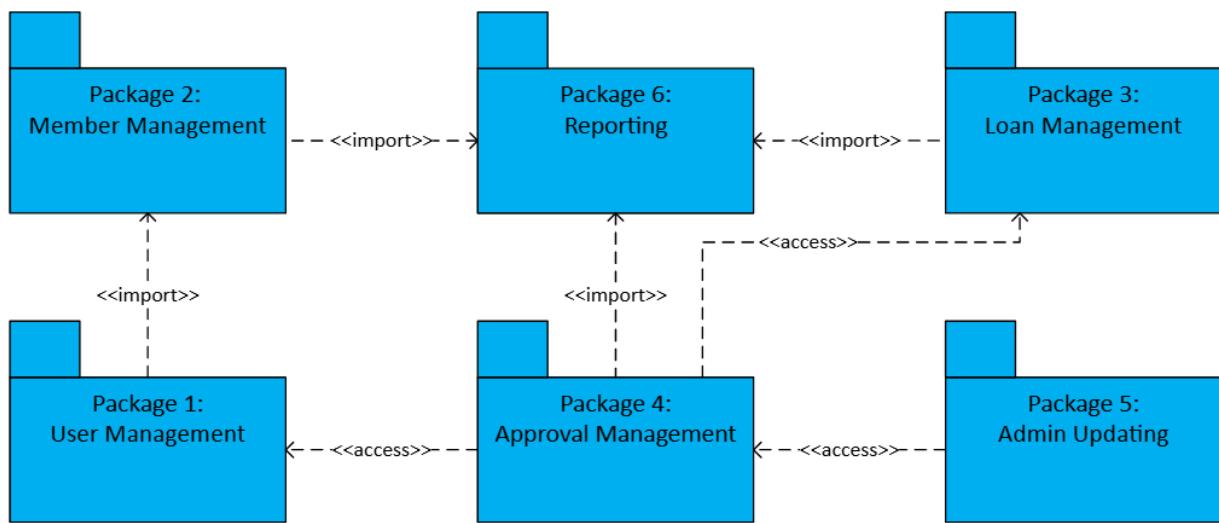

Figure 4.4 Package Diagram for KKK Online System

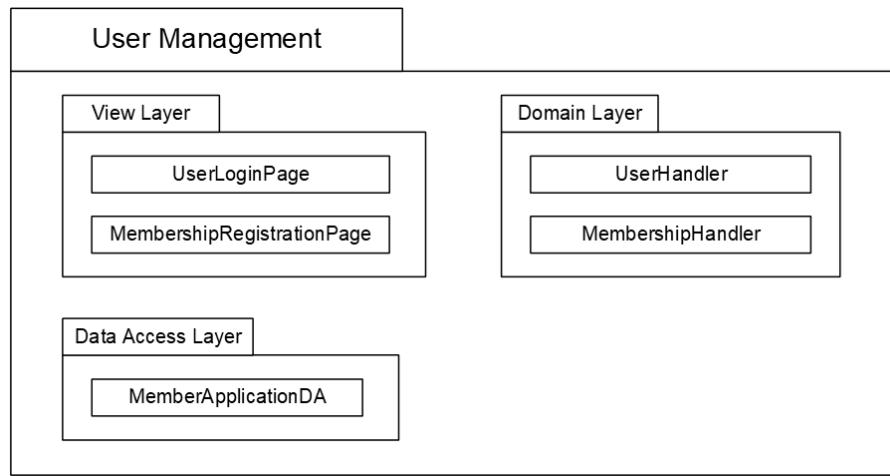

Figure 4.5 Package Diagram 1 for User Management Subsystem

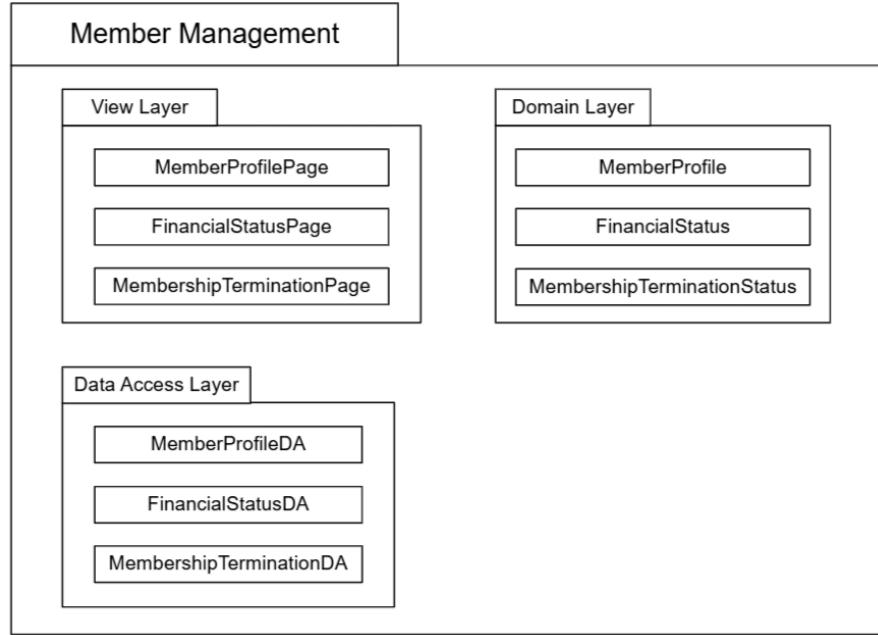

Figure 4.6 Package Diagram 2 for Member Management Subsystem

Figure 4.7 shows a loan management subsystem that consists of three main layers: view layer, domain layer and data access layer. The view layer includes the LoanApplicationPage and LoanStatusPage, which provide a user interface for submitting loan applications and tracking their status. The domain layer handles the core business logic, consisting of LoanApplicationHandler, LoanApplication and Transaction components that process loan requests and manage transactions. The data access layer includes LoanApplicationDA and TransactionDA, which facilitate data storage and retrieval from the database.

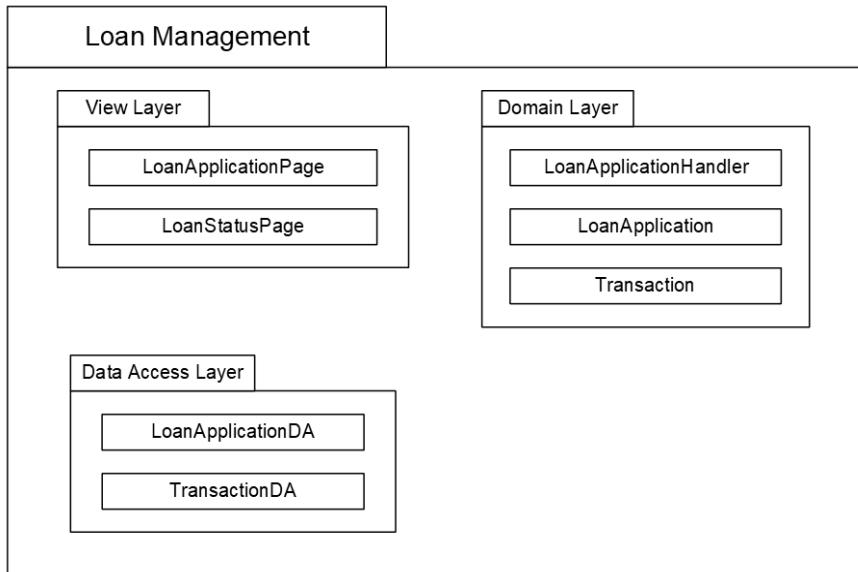

Figure 4.7 Package Diagram 3 for Loan Management Subsystem

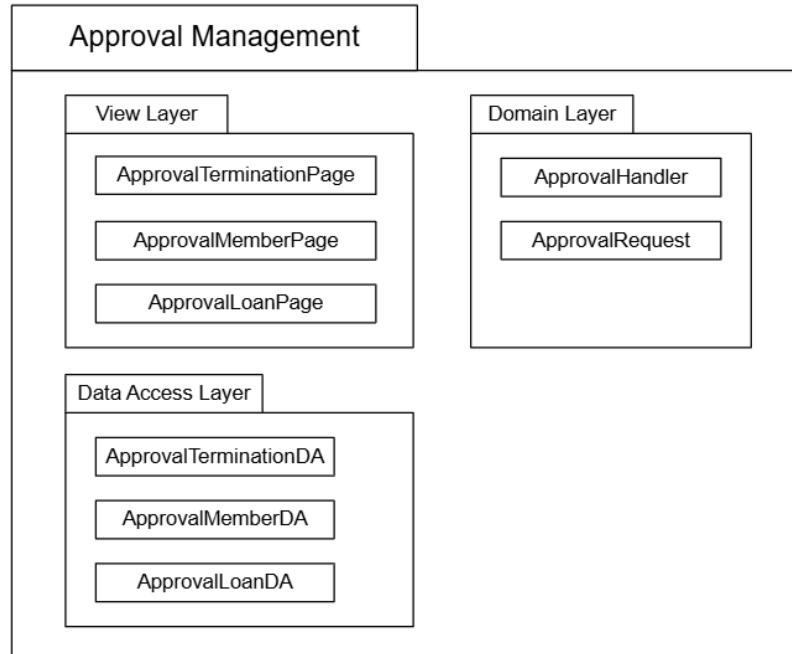

Figure 4.8 Package Diagram 4 for Approval Management Subsystem

Figure 4.9 shows the admin updating subsystem where the admin can view the dashboard, update the policies, banners and manage user financial statuses. The view layer includes the AdminDashboard, AdminBannerManagementPage, AdminPolicyManagementPage and AdminTransactionManagementPage, which provide a user interface for the actions aforementioned. The domain layer handles the core business logic, consisting of AdminHandler, BannerHandler, PolicyHandler and TransactionHandler components that process the operations. The data access layer include MemberDA, FinancialDA, LoanDA, PolicyDA and BannerDA which facilitate data storage and retrieval from the database.

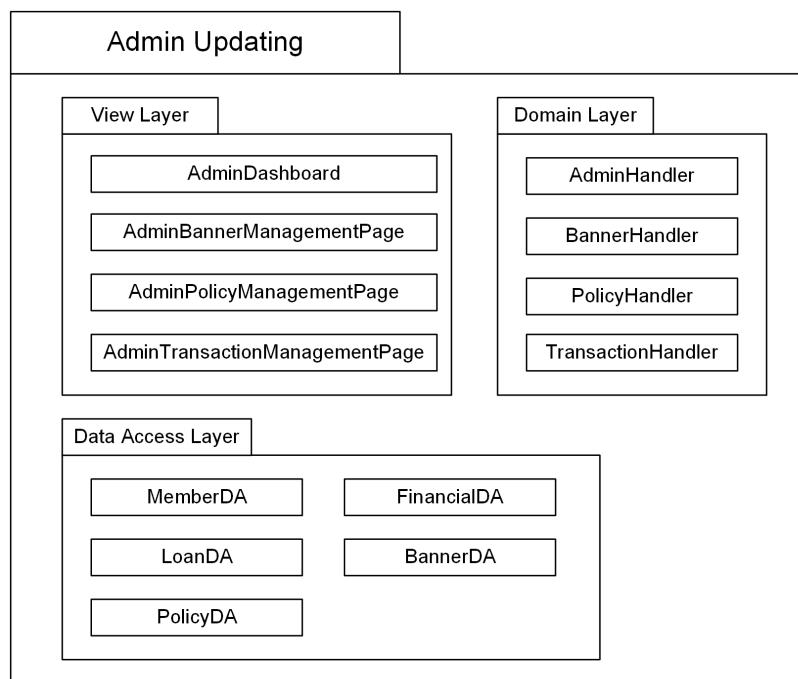

Figure 4.9 Package Diagram 5 for Admin Updating Subsystem

Figure 4.10 shows a reporting subsystem that consists of three layers: view layer, domain layer and data access layer. The view layer includes ReportGeneratorPage, ReportDetailsPage and ReportHistoryPage, which provide user interface for report. The domain layer handles the core business logic, consisting of ReportHandle, ReportGeneretor and Report components that process report requests. The data access layer includes ReportDA, ReportGeneratorDA, ReportHistoryDA, which facilitate data storage and retrieval from the database.

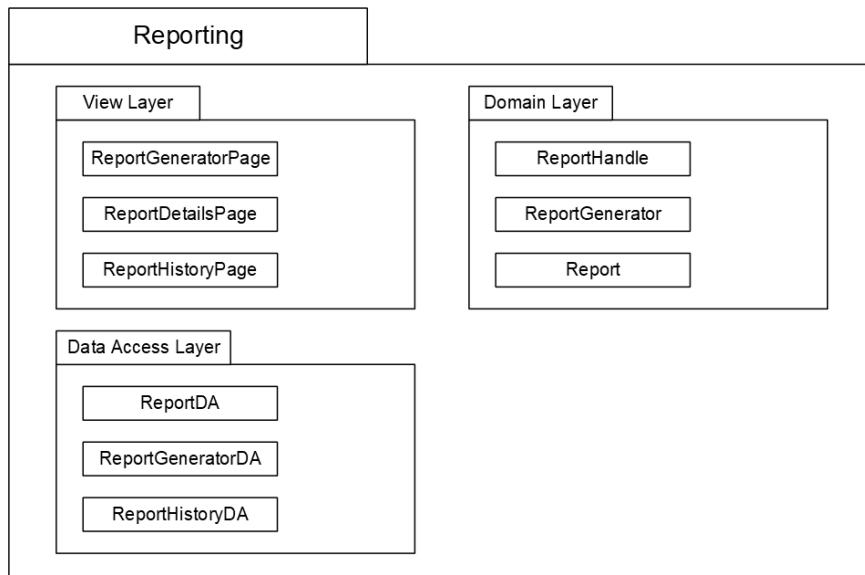

Figure 4.10 Package Diagram 6 for Reporting Subsystem

4.3 Logical View

This Logical View focuses on the system's structure from the developer's perspective. This view shows the key components of the system in object-oriented design using Class Diagrams.

The domain model of the KKK Online System is illustrated in Figure 4.11 below.

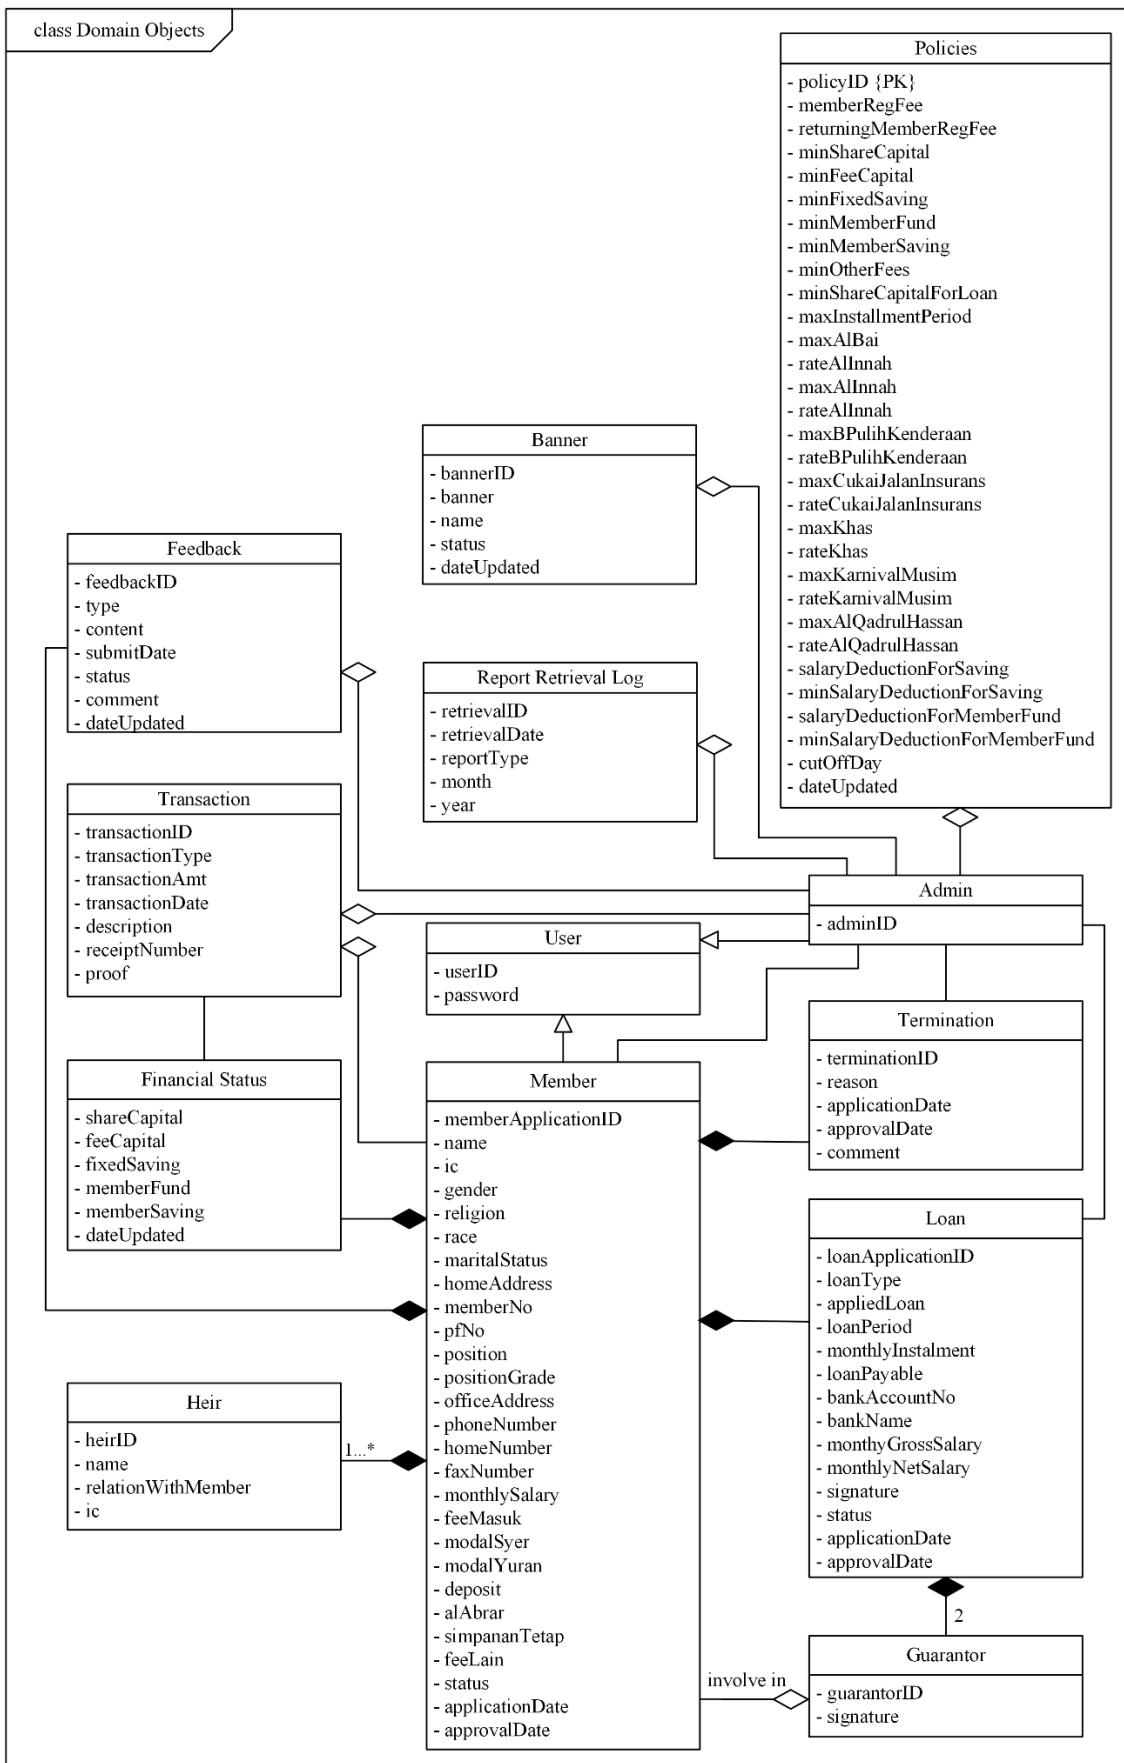

Figure 4.11 Class diagram for KKK Online System

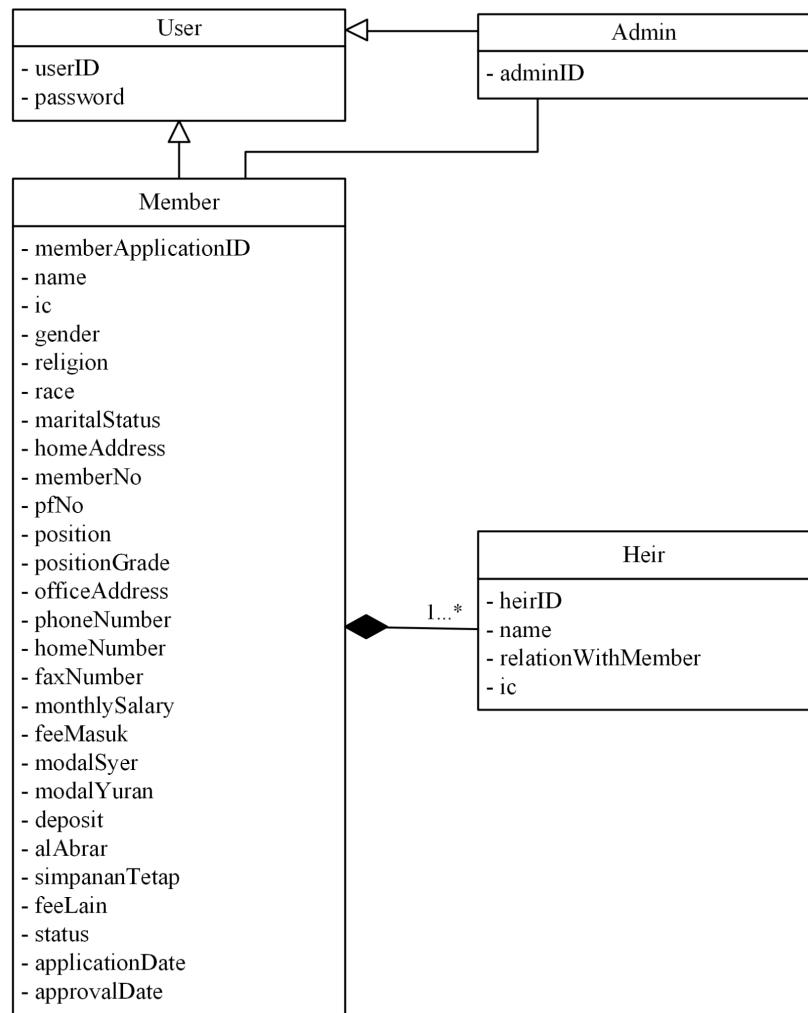

Figure 4.12 Class Diagram for User Module

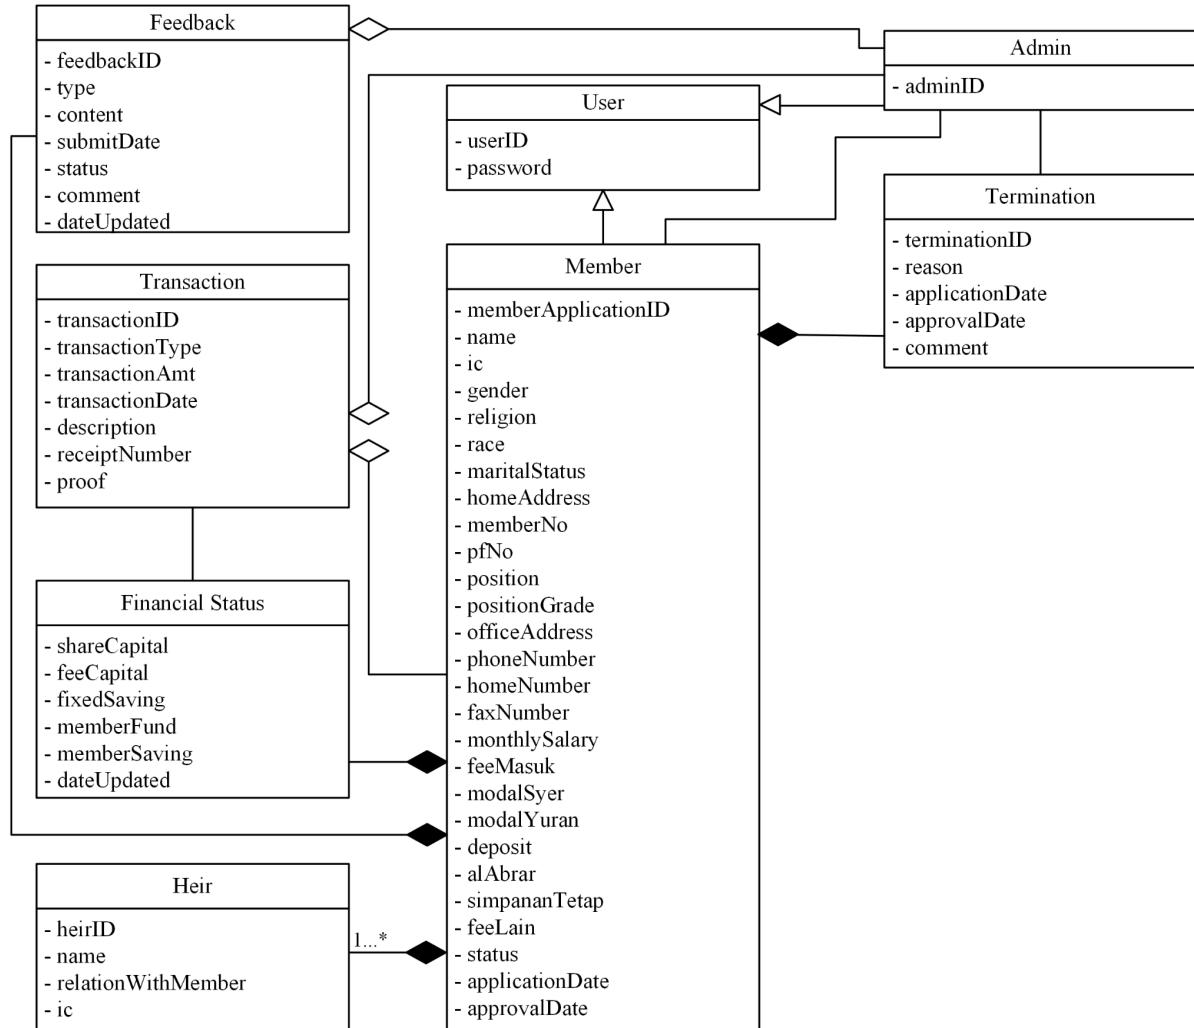

Figure 4.13 Class Diagram for Member Module

Figure 4.14 shows class diagram for loan module. The user class serves as a base for both member and admin, where members can apply for loans and admin can approve the loans. The member class contains personal attributes such as memberApplicationID, name, position, monthlySalary, applicationDate and more. The loan class stores loan-specific details, including loanApplicationID, loanType, loanPeriod, monthlyInstalment, status and more. Each loan application requires two guarantors, which includes guarantorID and signature.

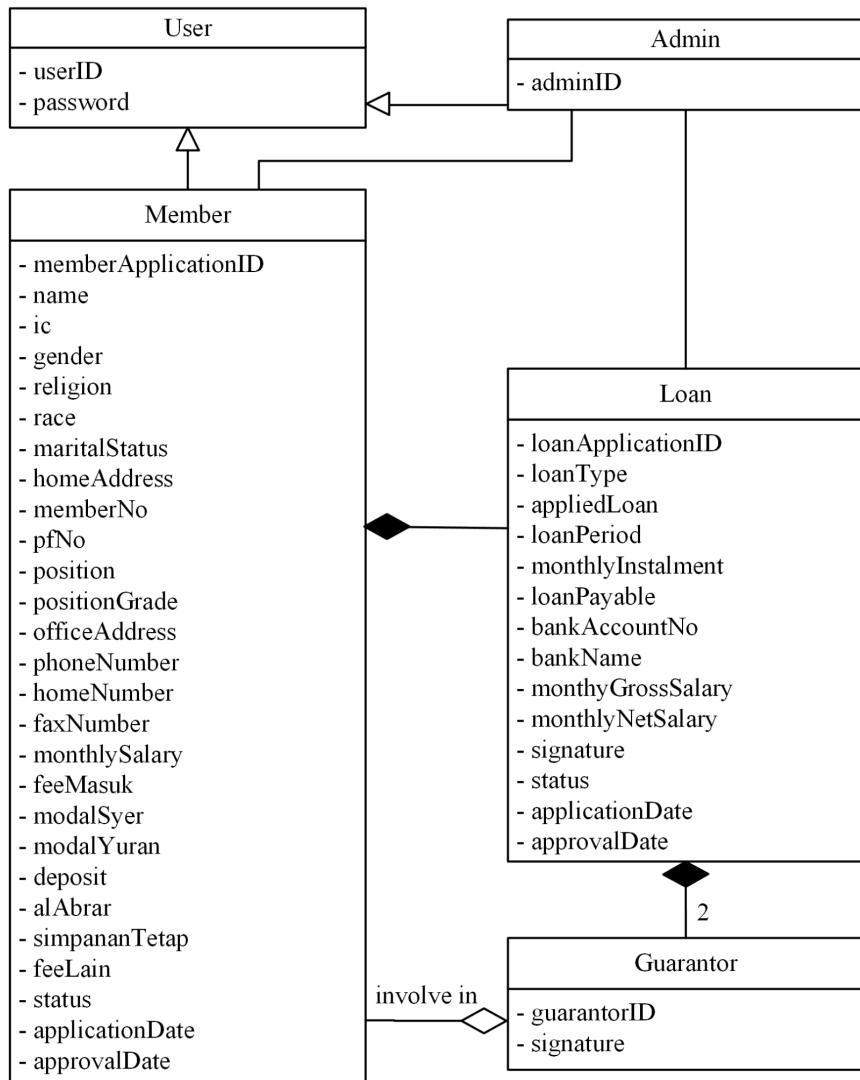

Figure 4.14 Class Diagram for Loan Module

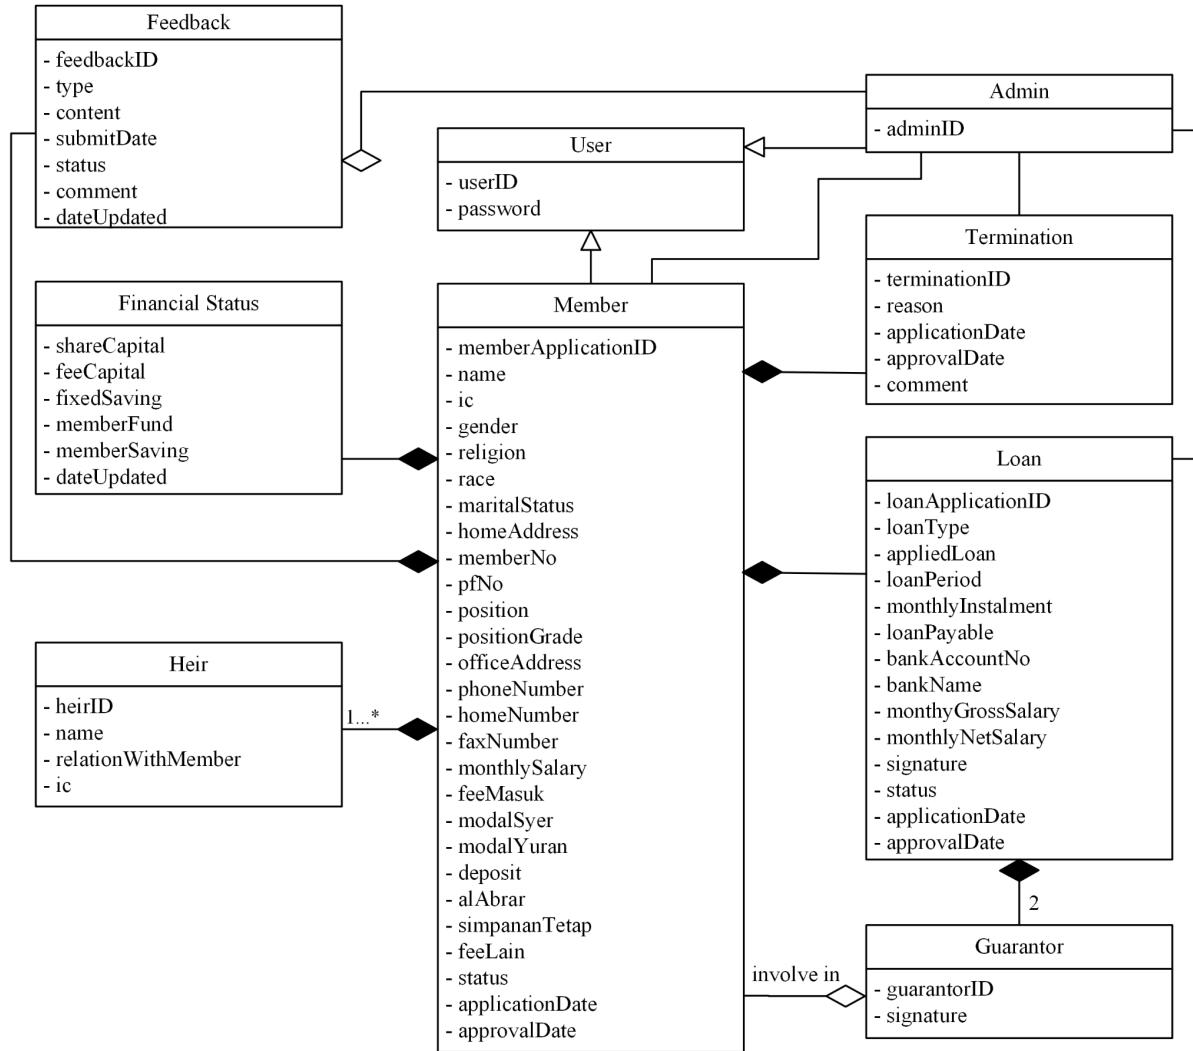

Figure 4.15 Class Diagram for Admin Approval Module

Figure 4.16 shows a class diagram for the admin updating module. The user class, inherited by admin and member, identifies the user and stores the member details. The loan class stores loan-related details, while the financial status and transaction classes manage member savings, funds and financial activities. The policies class defines many financial and loan-related rules. The banner class stores the banners.

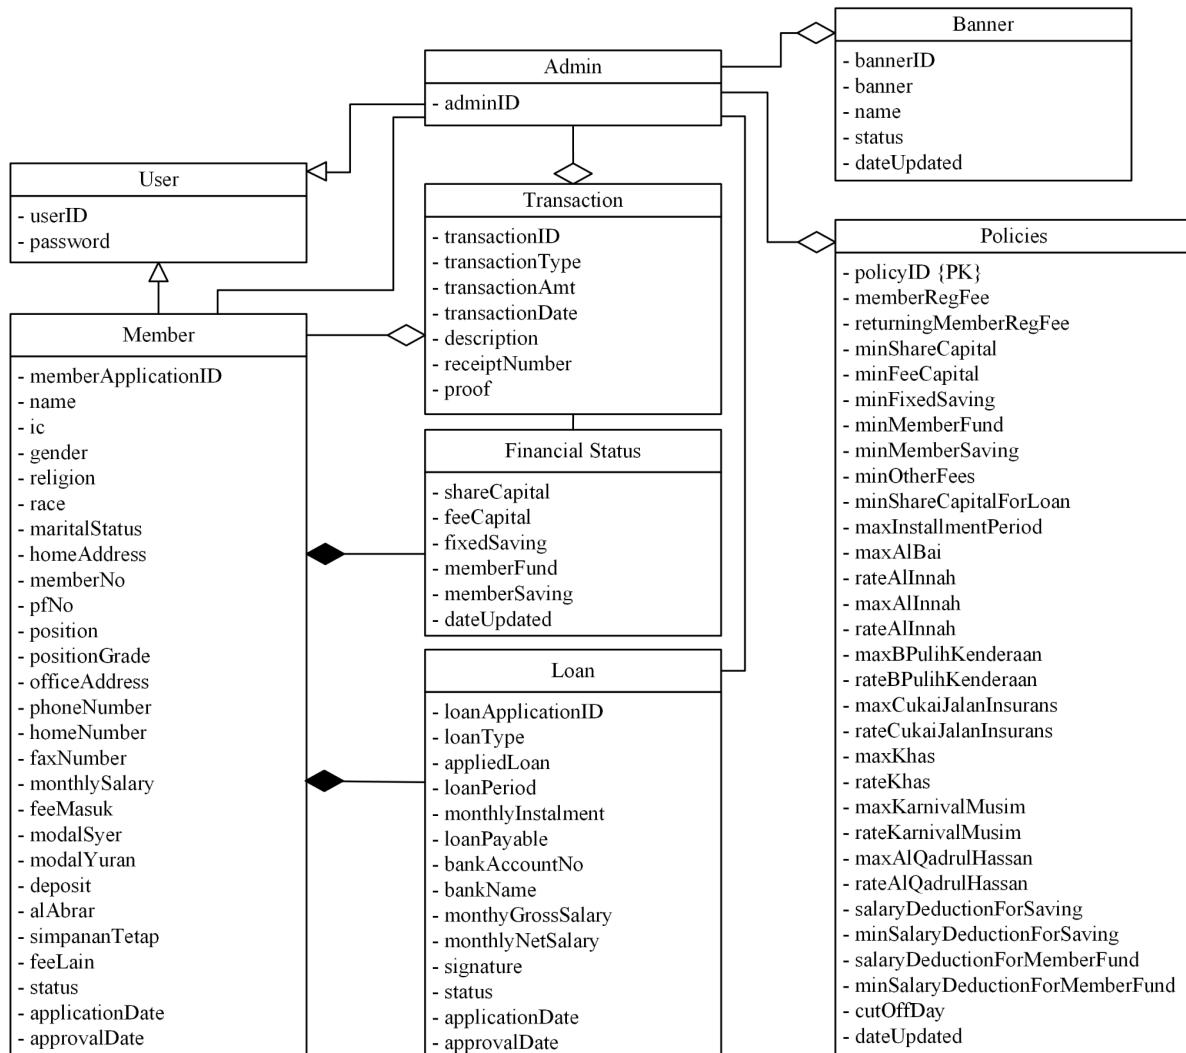

Figure 4.16 Class Diagram for Admin Updating Module

Figure 4.17 shows a class diagram for the admin reporting module. The user class, inherited by admin and member, ensures authentication and access control. The loan class stores loan-related details, while the financial status and transaction classes manage member savings, funds and financial activities. The policies class defines many financial and loan-related rules. The report retrieval log allows admins to generate reports based on different parameters, while the termination class handles member exit records.

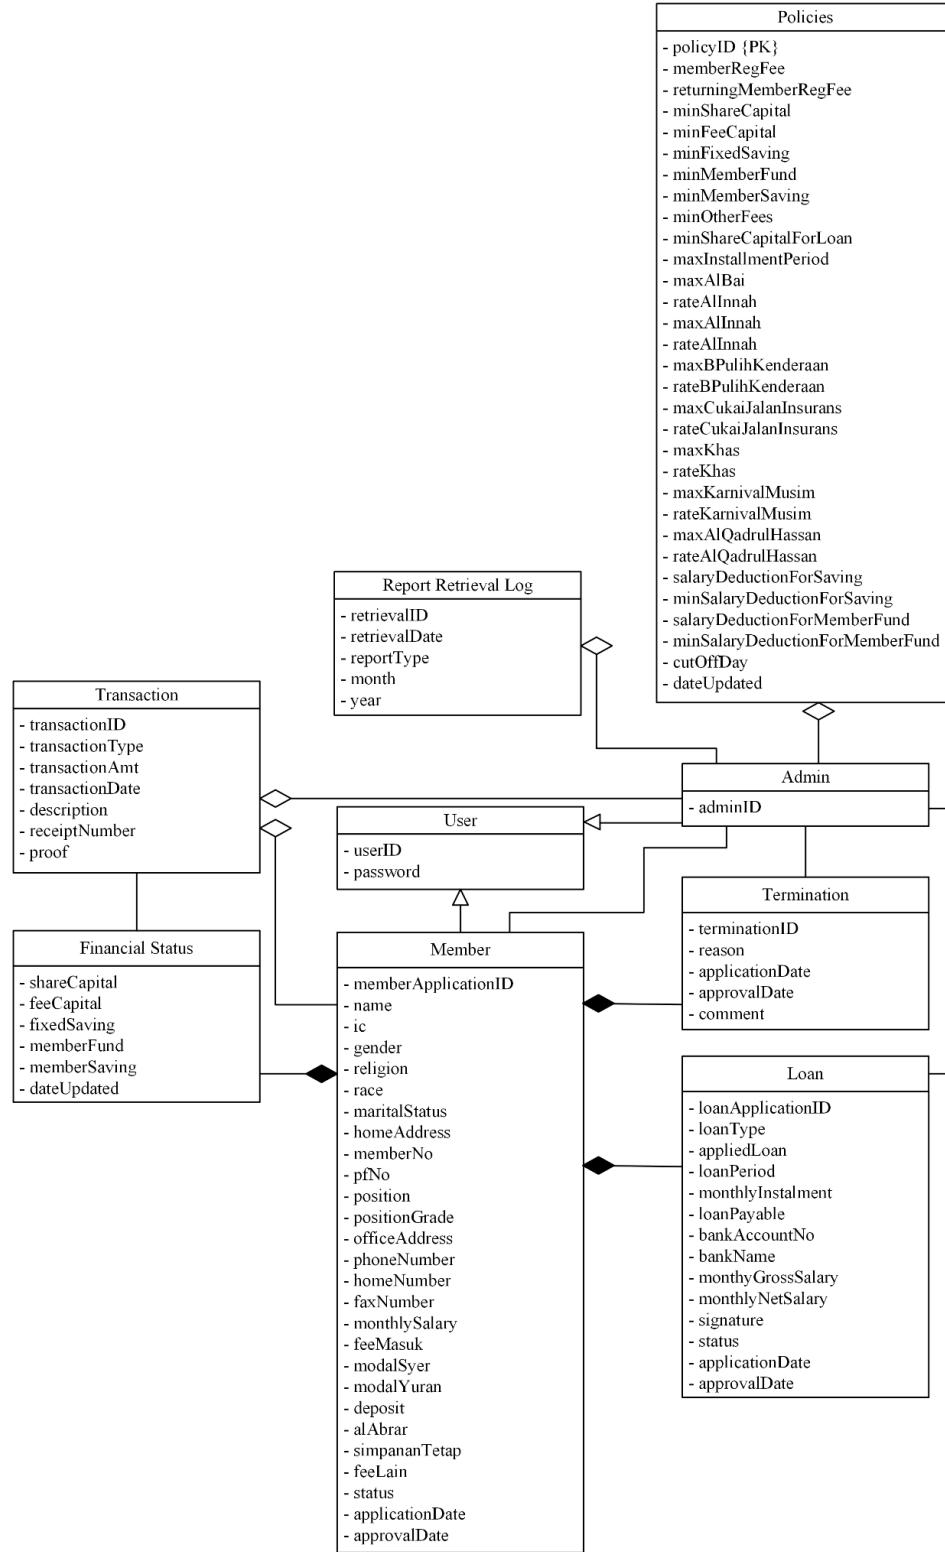

Figure 4.17 Class Diagram for Admin Reporting Module

4.4 Process View

This Process View shows the dynamic aspects of the system, focusing on how the system's components interact with each other at runtime. It illustrates how the system's processes communicate with each other.

User Module

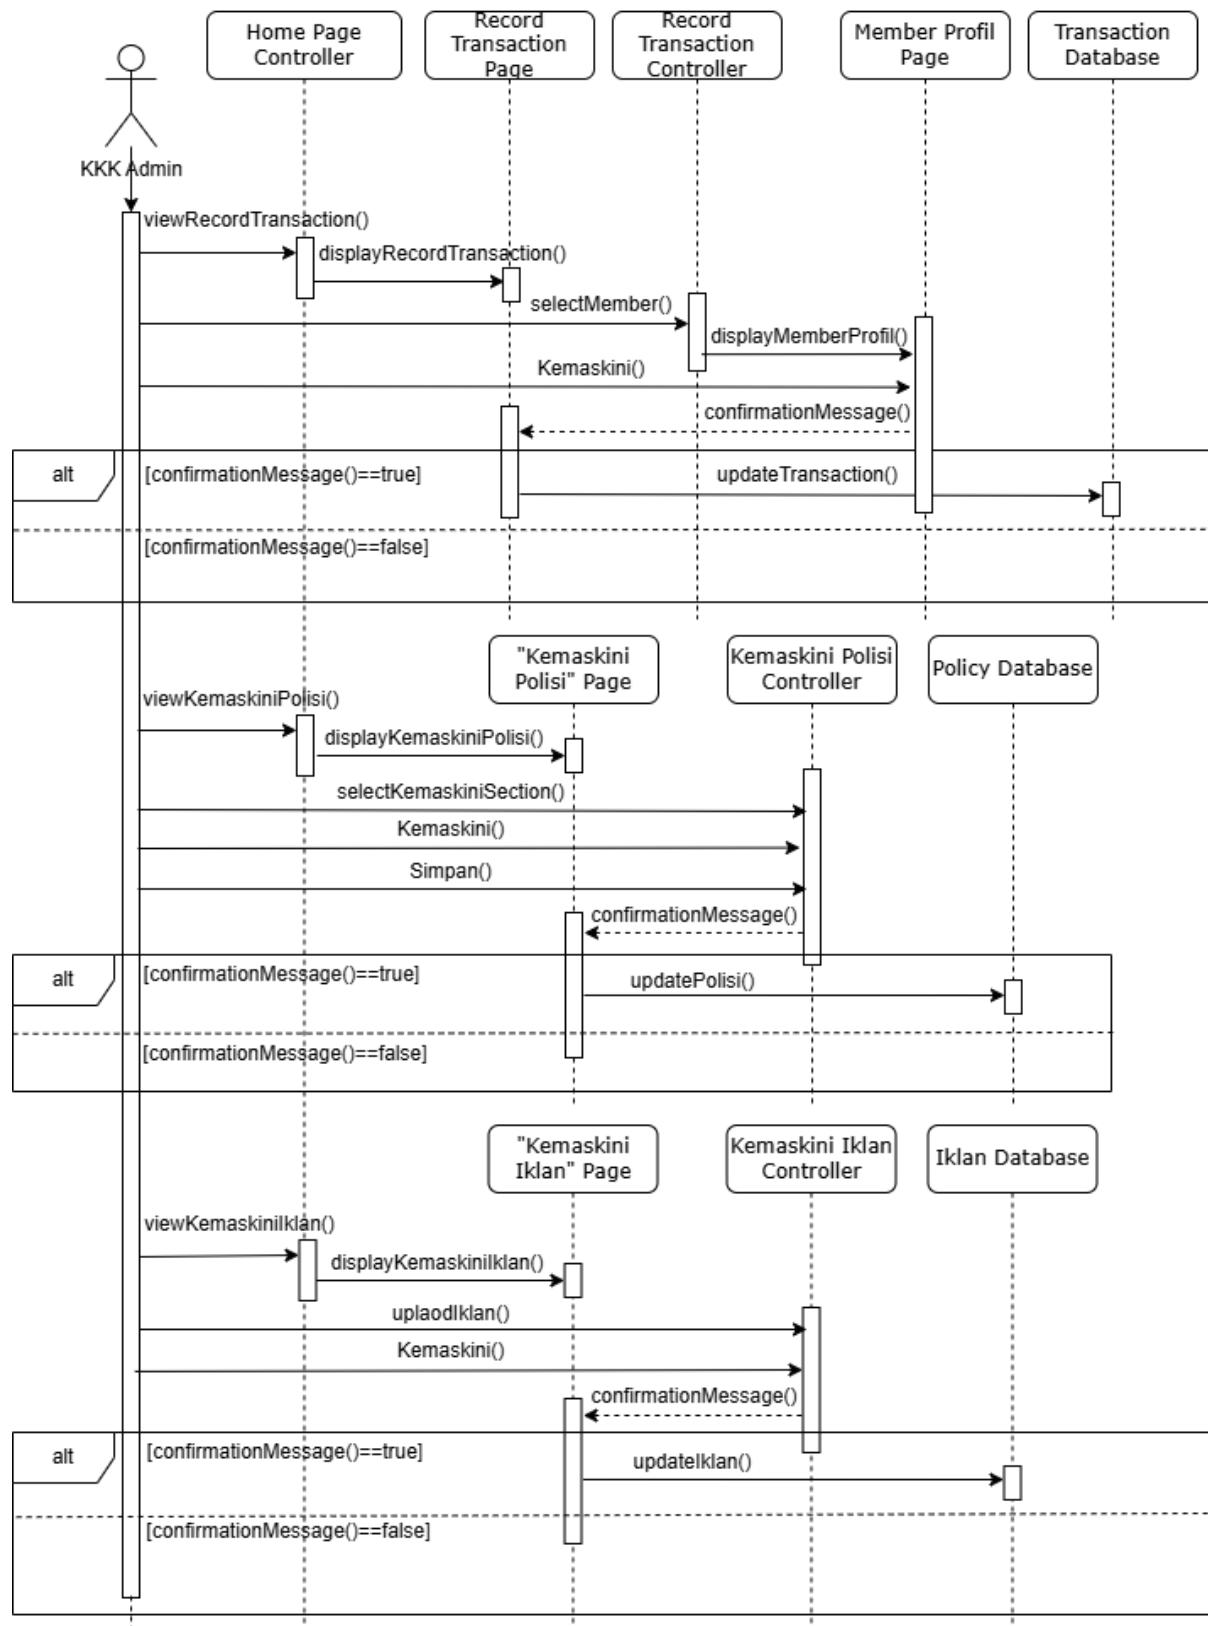

Figure 4.28: SD011 Sequence Diagram for Manage System

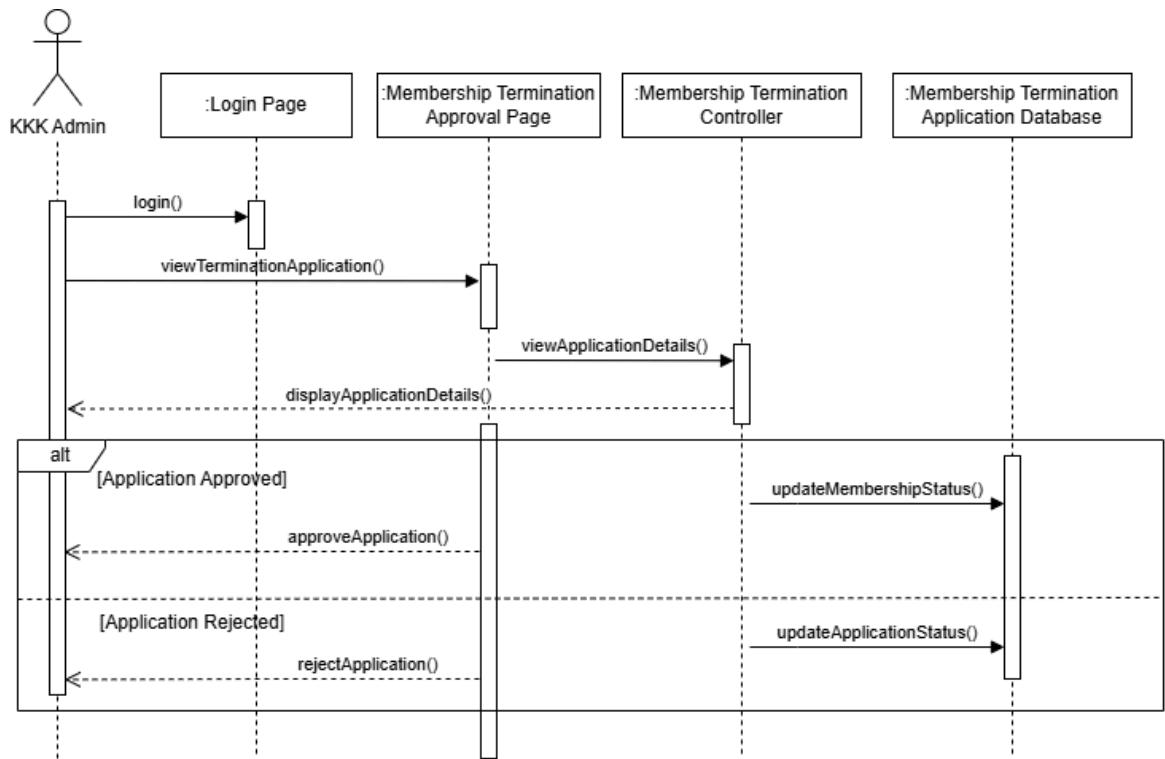

Figure 4.29: SD012 Sequence Diagram for Approve Membership Termination

4.5 Physical View

This Physical View describes how the software system is deployed on the hardware infrastructure, representing its physical architecture. The use of Deployment Diagram helps to visualize the relationship between hardware and software, ensuring proper deployment and performance optimization.

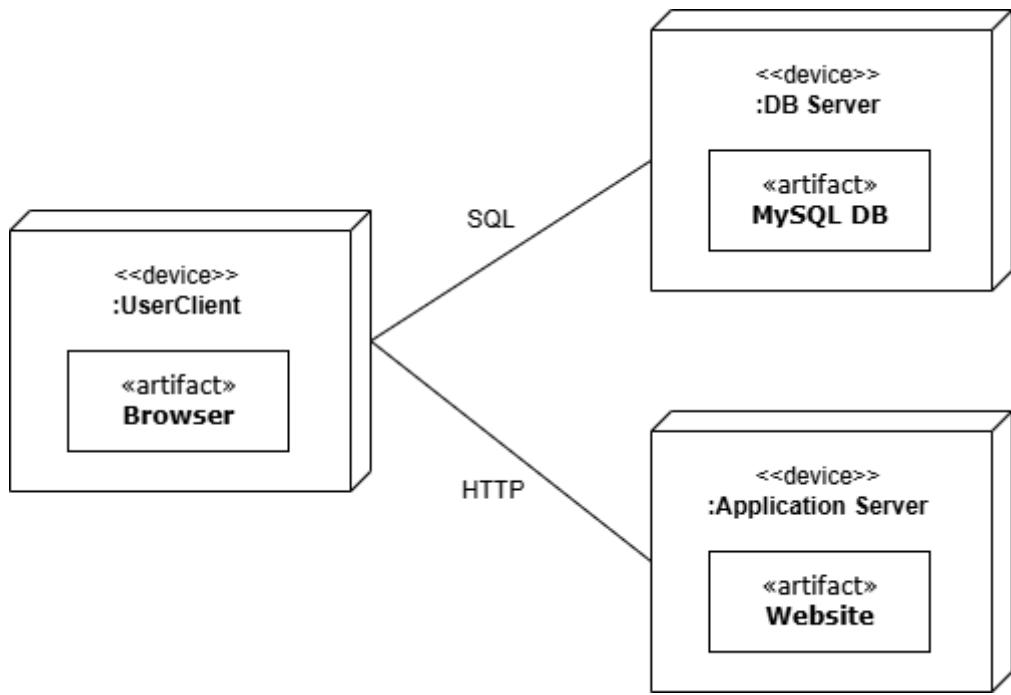

Figure 4.30: Deployment diagram for KKK Online System

5. Data Design

The major data or systems entities are stored into a relational database named as db_kkk, processed and organized into 27 entities as listed in Table 5.1. The relation between these entities are illustrated in the Entity-Relationship Diagram in Figure 5.1.

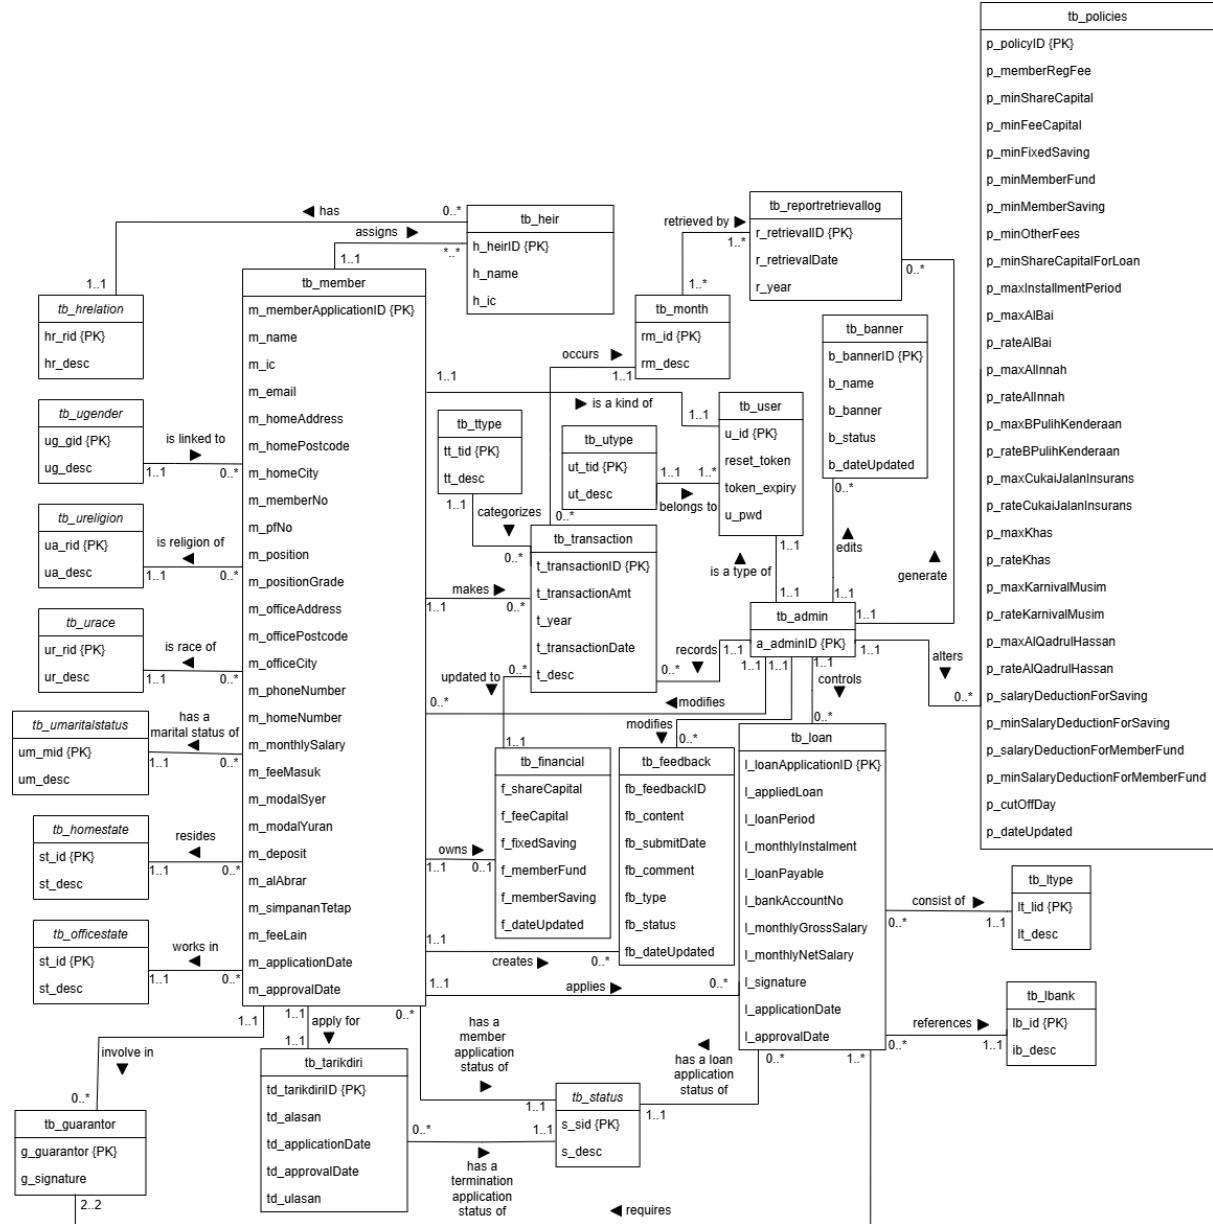

Figure 5.1 Entity-Relationship Diagram For KKK System

Table 5.1: Description of Entities in the Database

Entity Name	Description
tb_user	General term describing all users using KKK Online System
tb_utype	General term describing all types of users using KKK Online System
tb_member	General term describing all user logged in as member using KKK Online System
tb_ugender	General term describing the gender of a member
tb_ureligion	General term describing the religion of a member
tb_urace	General term describing the race of a member
tb_umaritalstatus	General term describing the marital status of a member
tb_homestate	General term describing the home state of a member
tb_officestate	General term describing the office state of a member
tb_admin	General term describing all user logged in as admin using KKK Online System
tb_heir	General term describing all people declared as heir of a member applicant
tb_hrelation	General term describing the relationship between a member applicant and his heir
tb_banner	General term describing all banners or picture to be published on Member Main Page
tb_policies	General term describing all policies of the cooperative
tb_transaction	General term describing all transaction made by member
tb_ttype	General term describing all types of transactions
tb_financial	General term describing all financial status of a member
tb_loan	General term describing all loans of the cooperative
tb_ltype	General term describing all types of loans of the cooperative
tb_lbank	General term describing all banks
tb_reportretrievallog	General term describing all report retrieval log of the system
tb_guarantor	General term describing all guarantors for a loan applicant

tb_status	General term describing all status for the applications
tb_month	General term describing all month in a year
tb_tarikdiri	General term describing all application to stop being a KKK member
tb_feedback	General term describing the feedback submitted by member
tb_ftype	General term describing all types of feedback

5.1 Data Dictionary

This section includes all data dictionaries shown in Table 5.1.1.

Table 5.1.1 Details of entity in database

Entity Name	Attributes	Data Type & Length	Description
tb_user	u_id (PK)	int (11)	Uniquely identifies each user
	reset_token	varchar (255)	Used when user are going to reset the password
	token_expiry	timestamp	Record the time when user reset password
	u_pwd	varchar(255)	User password for login
tb_admin	a_adminID (PK)	int (11)	Uniquely identifies each admin
tb_utype	ut_tid (PK)	int (11)	Uniquely identifies each user type
	ut_desc	varchar (10)	User's type description
tb_member	memberApplicationID (PK)	int (11)	Uniquely identifies each member application
	m_name	varchar(50)	User's full name
	m_ic	varchar(14)	User's identification number
	m_homeAddress	varchar(255)	User's home address
	m_homePostcode	int (11)	User's home postcode

	m_homeCity	varchar (50)	User's home city
	m_memberNo	int	Uniquely identifies each member
	m_pfNo	int	User's PF number
	m_position	varchar(50)	User's position
	m_positionGrade	varchar(11)	User's position grade
	m_officeAddress	varchar(255)	User's office address
	m_officePostcode	int (11)	User's office postcode
	m_officeCity	varchar (50)	User's office city
	m_phoneNumber	varchar(13)	User's phone number
	m_homeNumber	varchar(13)	User's home number
	m_monthlySalary	double	User's monthly salary
	m_feeMarket	double	User's entry fee
	m_modalSyer	double	User's shares
	m_modalYuran	double	User's share fee
	m_deposit	double	User's deposit
	m_alAbrar	double	A kind of user's fund
	m_simpanTetap	double	User's fixed saving
	m_feeLain	double	User's other fee
	m_applicationDate	datetime	The date when user submit his/her member application

	m_approvalDate	timestamp	The date when the member application being approved by admin
tb_ugender	ug_gid (PK)	int (11)	The unique id for gender
	ug_desc	varchar (10)	User's gender description
tb ureligion	ua_rid (PK)	int (11)	The unique id for religion
	ua_desc	varchar (10)	User's religion description
tb_urace	ur_rid (PK)	int (11)	The unique id for race
	ur_desc	varchar (10)	User gender's description
tb_umaritalstatus	um_mid (PK)	int (11)	The unique id for marital status
	um_desc	varchar (10)	User's marital status description
tb_homestate	st_id (PK)	int (11)	The unique id for user's home state
	st_desc	varchar (15)	User's home state description
tb_officestate	st_id (PK)	int (11)	The unique id for user's office state
	st_desc	varchar (15)	User's office state description
tb_heir	h_heirID (PK)	int (11)	Uniquely identifies each heir
	h_name	varchar(50)	Heir's full name
	h_ic	varchar(14)	Heir's identification number
tb_hrelation	hr_rid (PK)	int (11)	Uniquely identifies each heir relationship with member
	hr_desc	varchar (20)	The description of heir relationship with member
tb_banner	b_bannerID (PK)	int	Uniquely identifies each banner
	b_name	varchar (255)	Banner's name
	b_banner	varchar(50)	Banner's picture
	b_status	tinyint (1)	Banner's active or inactive state

	b_dateUpd ated	timestamp	Banner's updated time
tb_policies	p_policyID (PK)	int	Uniquely identifies each policy
	p_member RegFee	double	Policy for member registration fee
	p_minShar eCapital	double	Policy for minimum share capital of member applicant
	p_minFeeC apital	double	Policy for minimum fee capital of member applicant
	p_minFixe dSaving	double	Policy for minimum fixed saving of member applicant
	p_minMem berFund	double	Policy for minimum member fund of member applicant
	p_minMem berSaving	double	Policy for minimum member saving of member applicant
	p_minOthe rFees	double	Policy for minimum other fees of member applicant
	p_minShar eCapitalFor Loan	double	Policy for minimum share capital loan of loan applicant
	p_profitRat e	double	Policy for profit rate of loan
	p_maxInsta llmentPerio d	int	Policy for maximum instalment period of loan applicant
	p_maxFina ncingAmt	double	Policy for maximum financing amount of loan applicant
	p_salaryDe ductionFor Saving	double	Policy for salary deduction for saving of loan borrower
	p_salaryDe ductionFor MemberFu nd	double	Policy for salary deduction for member fund of loan borrower
	p_dateUpd	timestamp	The date when the admin update the

	ated		policy

Road Tax dan Insurans	RM 0.00
- Footer:** Contains sections for ALAMAT, HUBUNGI KAMI, and WAKTU OPERASI, along with copyright information.

Figure 6.4 Member Main Page

Figure 6.5 shows the Member Transaction Record Page, which allows members to view their transaction history.

The screenshot displays the 'Rekod Transaksi' (Transaction Record) page. At the top, there are dropdown menus for 'Pilih Bulan' (Select Month) and 'Pilih Tahun' (Select Year), and a 'Tapis' (Filter) button. A 'Kembali' (Return) button is located in the top right corner of the main table area. The main content is a table titled 'Rekod Transaksi' with columns: ID, Jenis, Amaun (RM), Bulan, Tahun, and Tarikh Direkod. The table lists ten transactions, with the last one being partially visible. Below the table is a navigation bar with page numbers 1, 2, and a next arrow. The bottom section of the page contains three columns: 'ALAMAT' (Address) with details for D/A Lembaga Kemajuan Pertanian Kemubu; 'HUBUNGI KAMI' (Contact Us) with telephone and email information; and 'WAKTU OPERASI' (Operating Hours) detailing the opening times for different days of the week. The footer includes a copyright notice: 'Hak Cipta © 2025 KKK. Semua Hak Terpelihara.'

Figure 6.5 Member Transaction Record Page

Figure 6.6 shows the Member Loan Repayment Record Page, allowing members to view their loan repayment history.

The screenshot displays a web application interface for managing member loans. At the top, there is a blue header bar with the KADA logo on the left and navigation links: Laman Utama, Profil, Pinjaman, Maklum Balas, Berhenti Menjadi Anggota, and Log Keluar on the right. Below the header, the main content area has a title "Rekod Bayaran Balik" (Loan Repayment Record) centered above a table. The table has columns for ID, Jenis (Type), Amaun (RM) (Amount), Bulan (Month), Tahun (Year), and Tarikh Direkod (Record Date). There are five rows of data in the table. Below the table, there are three sections: ALAMAT (Address), HUBUNGI KAMI (Contact Us), and WAKTU OPERASI (Operating Hours). The address is D/A Lembaga Kemajuan Pertanian Kemulu, Peti Surat 127, Bandar Kota Bharu, 15710 Kota Bharu, Kelantan. Contact information includes a telephone number (09-7447088) and an email address (koperasi_kada@yahoo.com). Social media links for Facebook, Instagram, and YouTube are provided under IKUTI KADA. Operating hours are listed as follows: Ahad - Rabu: 08:00 - 17:00; Kamis: 08:00 - 15:30; Jumaat: Rehat (Break); Sabtu: Rehat (Break).

ID	Jenis	Amaun (RM)	Bulan	Tahun	Tarikh Direkod
55	Baik Pulih Kenderaan	91.67	Disember	2024	03-01-2025
56	Baik Pulih Kenderaan	243.33	Disember	2024	03-01-2025

Figure 6.6 Member Loan Repayment Record Page

6.2.2 Update User Profile

Figure 6.7 shows the Member Profile, which allows members to view their personal information.

The screenshot displays a member profile page with a blue header bar containing the logo, navigation links (Laman Utama, Profil, Pinjaman, Maklum Balas, Berhenti Menjadi Anggota), and a Log Keluar button. The main content area has a title "Maklumat Peribadi". A blue header for the first section says "Butir-butir Peribadi Pemohon" and includes a "Kernaskini" button. This section contains a table of personal details:

Nama	Lam Kin Xin
No. KP	781213-09-0123
E-mel	lamkinxin@gmail.com
Jantina	Lelaki
Agama	Buddha
Bangsa	Cina
Taraf Perkahwinan	Bujang
Alamat Rumah	78, Jalan Ah Fook
Poskod	12345
Bandar	Ipooh
Negeri	Pahang
No. Anggota	1003

A second section follows, also with a "Kernaskini" button, containing a table of professional details:

No. PF	1007
Jawatan	Jurutera
Gred	N12
Alamat Pejabat	78, Jalan Koperasi
Poskod	51021
Bandar	Kota Bahru
Negeri	Kelantan
No. Tel / Fax	N/A
No. Tel Bimbit	0123456789
No. Tel Rumah	N/A
Gaji Bulanan	2000

The final section, also with a "Kernaskini" button, is titled "Maklumat Keluarga dan Pewaris" and contains a table for family members:

Keluarga / Pewaris 1	
Nama	Lam Ji Dan

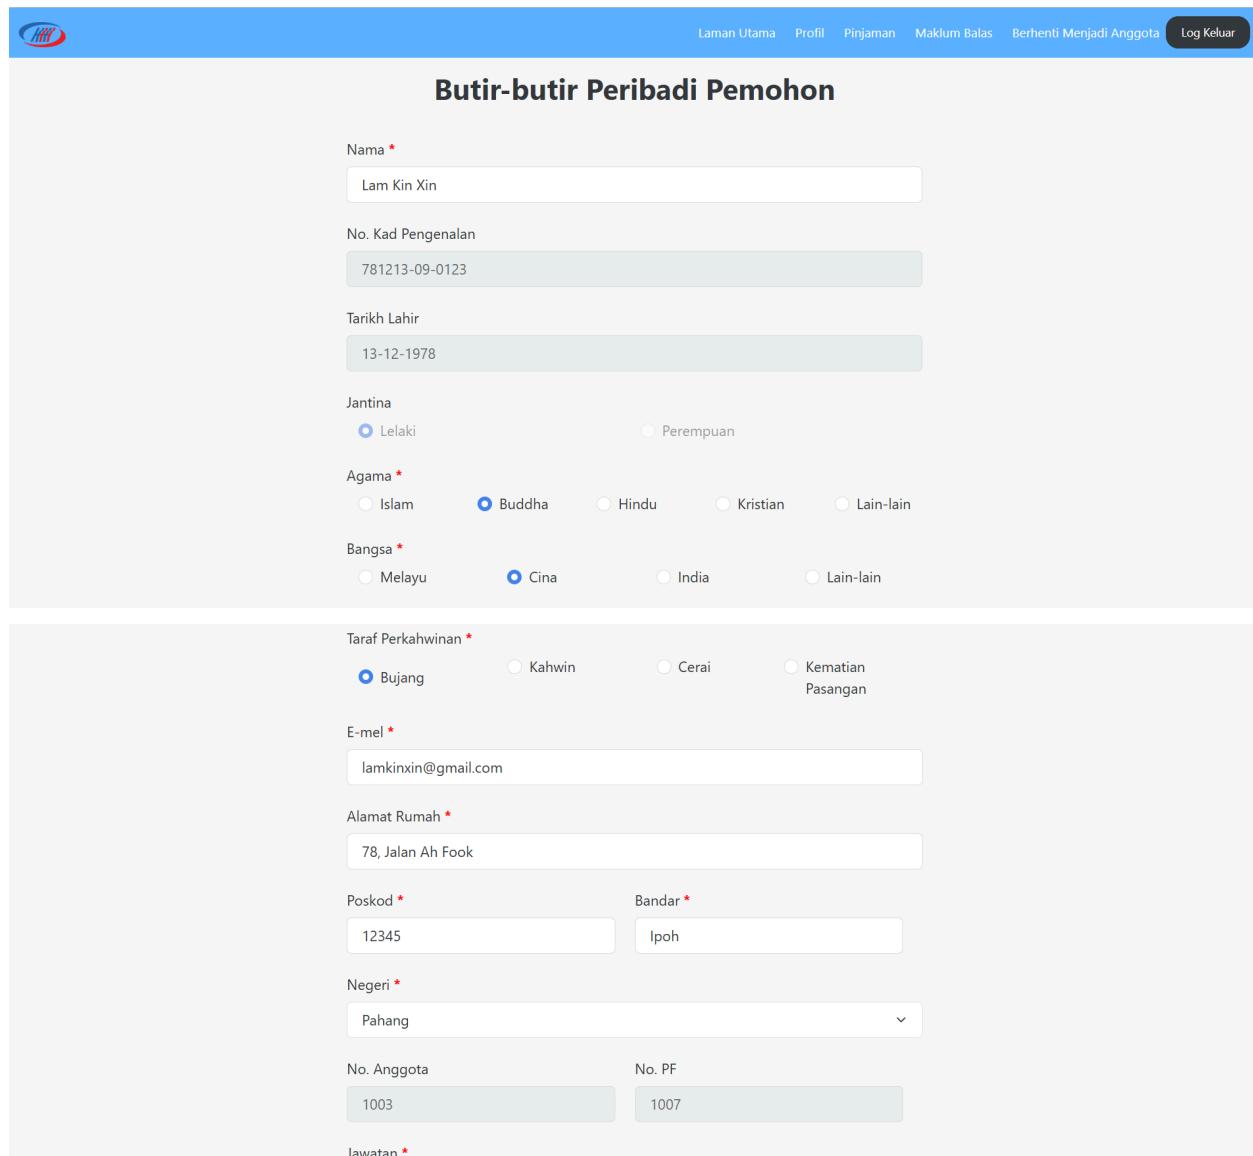

No. KP	040103-08-0123

Figure 6.19 Admin View Member Application Detail

In figure 6.20, the user can access the current member list. The search bar on the top right corner allows the user to search the member by their member no, PF no and name.

The screenshot shows a web application interface for managing members. At the top, there is a navigation bar with links for Permohonan, Senarai, Transaksi, Polisi, Kemaskini Iklan, Laporan, Log Keluar, and a toggle for Mod Penyuntingan. Below the navigation is a search bar with the placeholder "Cari anggota..." and a magnifying glass icon. The main content area is titled "Senarai Anggota" and displays a table of member records. The table columns are: No. Anggota, No. PF, Nama Anggota, No. Telefon, Email, Tarikh Masuk, and Butiran. Each row contains a set of data corresponding to a member, with a three-dot menu icon at the end of each row. At the bottom of the table, there is a small navigation bar with pages 1, 2, and a double-right arrow.

No. Anggota	No. PF	Nama Anggota	No. Telefon	Email	Tarikh Masuk	Butiran

Figure 6.20 Admin View Current Member List Page

In figure 6.21, the user can view all the details of members.

The screenshot shows a web application interface for viewing member details. At the top, there is a blue header bar with a logo on the left, a 'Log Keluar' button on the right, and a navigation menu with items: Permohonan ▾, Senarai ▾, Transaksi ▾, Polisi ▾, Kemaskini Iklan, and Laporan.

The main content area is titled 'Maklumat Anggota'. It contains four tabs:

- Maklumat Peribadi Ahli**: Displays personal information for member No. Aplikasi Anggota 2, including Name (Roslan bin Roslan), Gender (Lelaki), Religion (Islam), Ethnicity (Melayu), Marital Status (Kahwin), Address (67, Jalan Duta, 10000 Duta, Kelantan), and Phone Number (0123456789).
- Maklumat Saham Ahli**: Displays financial information for member No. Aplikasi Anggota 2, including Entry Fee (Fee Masuk) of RM 35.00, Yuran (Modal Yuran) of RM 0.00, Deposit of RM 0.00, and alAbrar (alAbrar) of RM 5.00. It also lists Fixed Savings (Simpanan Tetap) of RM 50.00 and Other Fees (Fee Lain) of RM 0.00.
- Maklumat Pewaris**: Displays inheritance information for member No. Aplikasi Anggota 2, listing three heirs: Roslan bin Ayah (Relation: Orang Tua), Siti bin Vali (Relation: Orang Tua), and Faris bin Roslan (Relation: Saudara kandung). Each heir is associated with their respective Kad Pengenalan numbers.
- A bottom navigation bar with a 'Kembali' (Back) button.

Figure 6.21 Admin View Current Member Detail Page

In figure 6.22, the user manages the member when switching on the editing mode by the switch. The user can either change the member status to resign or retire.

Figure 6.27 Admin View Current Loan Borrower List Page

In figure 6.28, the user can view the details of the loan application.

The screenshot shows a web application interface for viewing loan application details. At the top, there is a blue header bar with the logo 'MFI' on the left and a 'Log Keluar' button on the right. Below the header, a navigation menu includes links for Permohonan, Senarai, Transaksi, Polisi, Kemaskini Iklan, and Laporan. The main content area has a title 'Maklumat Peminjam' (Borrower Information) centered above two tables. The first table, titled 'Maklumat Pinjaman' (Loan Information), contains the following details:

No. Aplikasi Pinjaman	9
Jenis Pinjaman	Road Tax dan Insurans
Jumlah Pinjaman (RM)	5,000.00
Tempoh Pinjaman (Bulan)	5
Ansuran Bulanan (RM)	100.83
Tunggakan (RM)	6,050.00

The second table, titled 'Maklumat Peribadi Peminjam' (Borrower Personal Information), contains the following details:

No. Anggota	1000
No. PF	1005

Nama Anggota	Roslan bin Roslan
Akaun Bank	1234567890
Nama Bank	Affin Bank
Gaji Kasar (RM)	3,000.00
Gaji Bersih (RM)	2,800.00

Figure 6.28 Admin View Current Loan Borrower Detail Page

In figure 6.29, the user can view the list of paid off loan applications.

The screenshot shows a web application interface for managing loan applications. At the top, there is a navigation bar with links for Permohonan, Senarai Anggota, Senarai Peminjam, Transaksi, Polisi, Kemaskini Iklan, Maklum Balas, and Laporan. On the far right, there is a Log Keluar button. Below the navigation bar, the title "Senarai Peminjam Lepas" is displayed. To the right of the title is a search bar with the placeholder "Cari Pinjaman..." and a magnifying glass icon. The main content area contains a table with the following columns: No. Pinjaman, No. Anggota, No. PF, Nama Anggota, Jenis Pinjaman, Jumlah Permohonan (RM), Tempoh Pinjaman (Bulan), Ansuran Bulanan (RM), and Butiran. There is one row of data in the table:

No. Pinjaman	No. Anggota	No. PF	Nama Anggota	Jenis Pinjaman	Jumlah Permohonan (RM)	Tempoh Pinjaman (Bulan)	Ansuran Bulanan (RM)	Butiran
4	1003	1007	Lim Kin Xin	Baik Pulih Kenderaan	2,000.00	2	91.67	...

At the bottom center of the table, there is a small blue square button with the number "1".

Figure 6.29 Admin View Pass Loan Borrower List Page

In figure 6.30, the user can view the details of the paid off loan application.

The screenshot displays a web-based application interface for managing loan applications. At the top, there is a blue header bar with a logo on the left and a 'Log Keluar' button on the right. Below the header, a navigation menu includes links for 'Permohonan', 'Senarai Anggota', 'Senarai Peminjam', 'Transaksi', 'Polisi', 'Kemaskini Iklan', 'Maklum Balas', and 'Laporan'. The main content area features four tabs, each containing a table of information:

- Maklumat Pinjaman**:

No. Aplikasi Pinjaman	4
Jenis Pinjaman	Baik Pulih Kenderaan
Jumlah Pinjaman (RM)	2,000.00
Tempoh Pinjaman (Bulan)	2
Ansuran Bulanan (RM)	91.67
Tunggakan (RM)	0.00
- Maklumat Peribadi Peminjam**:

No. Anggota	1003
No. PF	1007
Nama Anggota	Lam Kin Xin
Akaun Bank	1234567890
Nama Bank	CIMB
Gaji Kasar (RM)	2,000.00
Gaji Bersih (RM)	1,800.00
Tarikh Pohon	2024-11-15 20:29:55
Tarikh Lulus	2024-11-25 13:33:49
- Maklumat Penjamin 1**:

No. Anggota	1001
Nama Penjamin	Pravin A/L Ali
No. Kad Pengenalan	891212-01-1231
No. PF	1006
- Maklumat Penjamin 2**:

No. Anggota	1000
Nama Penjamin	Roslan bin Roslan
No. Kad Pengenalan	010101-01-0101
No. PF	1005

At the bottom center of the page is a blue 'Kembali' button.

Figure 6.30 Admin View Pass Loan Borrower Detail Page

6.4.3 Admin Approve Membership Termination Application

Figure 6.31 and 6.32 shows the interface for membership termination application approval. In figure 6.31, the list of membership termination applications are displayed. The user can click the “Lihat Alasan” to view the reason and do operations (approve / reject) for all applications.

The screenshot shows a web application interface for managing membership termination requests. At the top, there is a blue header bar with the logo 'MFI' on the left and a 'Log Keluar' button on the right. Below the header, a navigation menu includes 'Permohonan', 'Senarai Anggota', 'Senarai Peminjam', 'Transaksi', 'Polisi', 'Kemaskini Iklan', 'Maklum Balas', and 'Laporan'. The main content area has a title 'Permohonan Berhenti Menjadi Anggota' (Membership Termination Application). A table lists two entries:

<input type="checkbox"/> Select All	ID	No. Anggota	Nama	Alasan	Tarikh Hantar	Butiran
<input type="checkbox"/>	1	1009	Shazlan bin Sekari @ Shokri	Lihat Alasan	24-01-2025	...
<input type="checkbox"/>	2	1007	Hayati binti Omar	Lihat Alasan	24-01-2025	...

Below the table, there is a small blue box containing the number '1'. At the bottom, there are two buttons: 'Lulus' (Approved) in green and 'Tolak' (Rejected) in red.

Figure 6.31 Admin Approve Membership Termination Application

In figure 6.32, the user will be redirected to the details of the membership termination application page when clicking on the “butiran” button. In this interface, the user can perform an approve or reject operation after viewing all details.

The screenshot shows a web-based administrative interface for managing membership termination applications. At the top, there is a blue header bar with the logo 'MFI' on the left and a 'Log Keluar' (Logout) button on the right. Below the header, a navigation menu includes 'Permohonan', 'Senarai Anggota', 'Senarai Peminjam', 'Transaksi', 'Polisi', 'Kemaskini Iklan', 'Maklum Balas', and 'Laporan'. The main content area is titled 'Maklumat Pemohon' (Applicant Information). It contains three sections: 'Maklumat Peribadi Pemohon' (Personal Information), 'Maklumat Saham Pemohon' (Shareholder Information), and 'Alasan Pemohon' (Reason for Application). The 'Maklumat Peribadi Pemohon' section displays the following data:

No. Aplikasi Anggota	22
No. PF	1016
Nama Anggota	Goe Jie Ying
No. Kad Pengenalan	040622-01-0101
No. Telefon	0167846693
Email	goeying@graduate.utm.my
Jawatan	Pegawai Biasa
Gred	N17
Gaji Bulanan (RM)	7,800.00

The 'Maklumat Saham Pemohon' section displays the following data:

Fee Masuk (RM)	50.00
Modal Yuran (RM)	35.00
Deposit (RM)	0.00
alAbrar (RM)	5.00
Simpanan Tetap (RM)	0.00
Fee Lain (RM)	0.00

The 'Alasan Pemohon' section shows the reason: 'Saya penat' (I am tired). There is also a 'Status' dropdown labeled 'Pilih Status ▾'.

Figure 6.32 Admin View Membership Termination Application Detail

Admin View Feedback List Page

The screenshot shows a web application interface for managing feedback. At the top, there is a blue header bar with a logo on the left and a "Log Keluar" button on the right. Below the header, a navigation menu includes "Permohonan", "Senarai", "Transaksi", "Polisi", "Kemaskini Iklan", and "Laporan". The main content area has a title "Senarai Maklum Balas" (Feedback List). Below the title are three dropdown filters: "Semua Jenis", "Semua Status", and a "Tapis" (Filter) button. A table lists two feedback entries:

ID	Jenis	Status	Tarikh Hantar	Butiran
2	Masalah	Sedang Diproses	24-01-2025 12:37:38	...
1	Cadangan	Diterima	24-01-2025 12:37:30	...

A small blue square with the number "1" is positioned at the bottom center of the page.

6.5.1 Record Transactions

There are two methods to record transactions, either by salary deduction or ad-hoc transactions.

Figure 6.34 and 6.35 shows the interface for salary deduction. In figure 6.34, the list of active members and their financial details are displayed. The user can filter the results by the year and month for the members that have not made salary deduction where he or she shall; or by member no. The user shall select the members where the salary deduction should be recorded, and select the year and month of the salary deducted.

The screenshot shows a web-based administrative interface for managing member transactions. At the top, there is a navigation bar with links for 'Permohonan', 'Senarai', 'Transaksi', 'Polisi', 'Kemaskini Iklan', and 'Laporan'. On the far right, there is a 'Log Keluar' button. Below the navigation bar, the page title is 'Transaksi'. A search bar labeled 'Cari Anggota' is present, along with dropdown menus for 'Pilih Bulan' and 'Pilih Tahun', and a 'Tapis' button. There is also a 'No Anggota' input field and a 'Cari' button. The main content area displays a table of member data. The columns include: 'Select All' (checkbox), 'No Ahli' (member ID), 'Nama' (name), 'Modah Syer', 'Modal Yuran', 'Simpanan Tetap', 'Tabung Anggota', 'Simpanan Anggota', 'Al-Bai', 'Al-Innah', 'Baik Pulih', 'Kenderaan', 'Road Tax dan Insurans', 'Khas', 'Karnival Musim Istimewa', 'Al-Qadrul Hassan', and 'Dikemaskini'. Below the table, there are page navigation buttons (1, 2, ») and a section titled 'Potongan Gaji untuk bulan' with dropdown menus for 'Januari' and '2025', followed by a 'Potongan Gaji' button.

Select All	No Ahli	Nama	Modah Syer	Modal Yuran	Simpanan Tetap	Tabung Anggota	Simpanan Anggota	Al-Bai	Al-Innah	Baik Pulih	Kenderaan	Road Tax dan Insurans	Khas	Karnival Musim Istimewa	Al-Qadrul Hassan	Dikemaskini

Potongan Gaji untuk bulan

Januari 2025

Potongan Gaji

Figure 6.34 Admin Salary Deduction Page

Figure 6.35 shows the list of members selected from Figure 6.34. The member information and the status changes are displayed. If the member has a loan that shall be repaid, the monthly instalment is also considered. If the member already has a record for salary deduction for the selected month, or if the member is approved after the cut-off day, a warning message is displayed. The admin can then enter the receipt number and upload the receipt.

The screenshot displays a web-based administrative interface for managing member transactions. At the top, there is a navigation bar with links for Permohonan, Senarai Anggota, Senarai Peminjam, Transaksi, Polisi, Kemaskini Iklan, Maklum Balas, and Laporan. On the far right of the header is a 'Log Keluar' button. The main content area is titled 'Pengesahan Transaksi Potongan Gaji' (Approval of Salary Deduction Transaction). Below the title, there is a table for each member, showing their details, current status, changes, and actions.

No Ahli	Nama	Perubahan Status				Tindakan

6.5.2 Update Policies

The policies are divided into 3 categories, namely policies for member application, policies for loan application, and policies for salary deduction. Figure 6.38 shows the main page of the update policies.

The screenshot displays a web-based administrative interface for managing policies. It features a top navigation bar with links for 'Permohonan', 'Senarai Anggota', 'Senarai Peminjam', 'Transaksi', 'Polisi', 'Kemaskini Iklan', 'Maklum Balas', 'Laporan', and 'Log Keluar'. Below the navigation is a title 'Kemaskini Polisi'.

- Polisi Asas Pemohonan Anggota:** This section lists various fees and minimum amounts. The data is as follows:

Item	Value
Fee Masuk	RM40.00
Fee Masuk Anggota yang Pernah Menjadi Anggota	RM100.00
Modah Syer Minimum	RM300.00
Modal Yuran Minimum	RM35.00
Wang Deposit Anggota Minimum	RM5.00
Sumbangan Tabung Kebajikan Minimum	RM5.00
Simpanan Tetap Minimum	RM0.00
Lain-lain	RM0.00
- Polisi Permohonan Pembayaran:** This section lists maximum loan amounts and terms. The data is as follows:

Item	Value
Modal Syer Minimum Peminjam	RM 300.00
Tempoh Ansuran Maksima	7 tahun
Kadar Keuntungan	4.2%
Pembayaran Maksima Al-Bai	RM 10,000.00
Pembayaran Maksima Al-Innah	RM 10,000.00
Pembayaran Maksima Baik Pulih Kenderaan	RM 4,500.00
Pembayaran Maksima Cukai Jalan dan Insurans	RM 4,500.00
Pembayaran Maksima Skim Khas	RM 10,000.00
Pembayaran Maksima Karnival Musim Istimewa	RM 10,000.00
Pembayaran Maksima Al-Qadrul Hassan	RM 10,000.00
- Jadual Pembayaran Balik Pembayaran:** This section displays a table of monthly repayment amounts based on loan amount and duration. The data is as follows:

Jumlah Pembayaran	Ansuran Bulanan						
	1	2	3	4	5	6	7
1,000.00	86.83	45.17	31.28	24.33	20.17	17.39	15.40

- Polisi Potongan Gaji:** This section lists deduction amounts. The data is as follows:

Item	Value
Potongan Gaji untuk Simpanan Tetap	RM 50.00
Minimum Potongan Gaji untuk Simpanan Tetap	RM 25.00
Potongan Gaji untuk Sumbangan Tabung Kebajikan	RM 5.00
Minimum Potongan Gaji untuk Sumbangan Tabung Kebajikan	RM 5.00
Hari Tutup (Cut-Off Day)	26

Figure 6.38 Admin Update Policies

Figure 6.38 shows the Update Member Application Policy Page. The values here will be reflected in the member application, fee and contribution section.

The screenshot displays the 'Kemaskini Polisi Asas Pemohonan Anggota' (Update Member Application Policy) page. The page header includes a logo, navigation links (Permohonan, Senarai, Transaksi, Polisi, Kemaskini Iklan, Laporan), and a 'Log Keluar' button. The main content area lists several fees and contributions with their current values:

Kategori	Nilai
Fee Masuk	RM 50 .00
Fee Masuk Anggota yang Pernah Menjadi Anggota	RM 100 .00
Modah Syer Minimum	RM 300 .00
Modal Yuran Minimum	RM 35 .00
Wang Deposit Anggota Minimum	RM 0 .00
Sumbangan Tabung Kebajikan Minimum	RM 5 .00
Simpanan Tetap Minimum	RM 5 .00
Lain-lain	RM 0 .00

At the bottom right are two buttons: 'Kembali' (Back) and 'Kemaskini' (Update).

Figure 6.38 Admin Update Member Application Policy Page

Figure 6.39 shows the Update Loan Application Policy Page. The values here will be reflected in the loan application, loan details section.

The screenshot displays the 'Kemaskini Polisi Permohonan Pembiayaan' (Update Loan Application Policy) page. At the top, there is a navigation bar with links for 'Permohonan', 'Senarai Anggota', 'Senarai Peminjam', 'Transaksi', 'Polisi', 'Kemaskini Iklan', 'Maklum Balas', and 'Laporan'. On the far right of the header is a 'Log Keluar' button. Below the header, the main title 'Kemaskini Polisi Permohonan Pembiayaan' is centered. The page contains several input fields and tables for updating loan policies.

Muka 2/3

LAPORAN KEWANGAN

Berdasarkan analisis untuk tempoh Januari 2025, laporan ini merumuskan bahawa:

1. Permohonan Kehilangan:
 - Kadar kelulusan keahlian adalah 0.0%
 - Jumlah 2 permohonan baharu telah diterima

2. Permohonan Pinjaman:
 - Kadar kelulusan pinjaman adalah 0.0%
 - Jumlah nilai pinjaman yang diluluskan: RM 5,000.00

3. Cadangan:
 - Meningkatkan proses kelulusan keahlian
 - Mengkaji semula kriteria kelayakan pinjaman
 - Mengkaji semula strategi pengurusan kewangan
 - Memantau prestasi kewangan secara berterusan
 - Mengelakkan polisi yang sedia ada untuk kestabilan operasi

8.7 Boundary Value Analysis

8.7.1 Member Information Form

This form appears in three parts in the system:

- Member Application Form: Applicant Information (Maklumat Pemohon)
- Update Profile Form: Applicant Information (Butir-butir Peribadi Pemohon)
- Loan Application Form: Application Information

Table 8.7.1 details the fields present in the member information form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.1 Table of equivalence class for member information form

Field Name	Equivalence Class	Representative (BVA)	Expected Result
Nama	Name consists of alphabet and symbols such as ‘/’, ‘”’, ‘@’ and ‘ ’	Ali bin Abu	System accept the name
	Name consists of number	1234	System reject the name
No. Kad Pengenalan	Numbers with format of “xxxxxx-xx-xxxx”	040605-10-1587	System accept the ic
	Numbers that does not follow the format of “xxxxxx-xx-xxxx”	040605101587	System reject the ic
	Alphabet	ABC	
Email	Email that consists of “@” and “.com”	tanmeiling@gmail.com	System accept the email
	Email that does not consists of “@” or “.com”	User123.com	System reject the email
Jantina	Values from the available radio button 1: Lelaki 2: Perempuan	1	System accept the gender
Agama	Values from the available radio button 1: Islam 2: Buddha 3: Hindu 4: Kristian 5: Lain-lain	1	System accept the religion
Bangsa	Values from the available radio button 1: Melayu 2: Cina 3: India 4: Lain-lain	1	System accept the race

Taraf Perkahwinan	Values from the available selection 1: Bujang 2: Kahwin 3: Cerai 4: Kematian Pasangan	1	System accept the marital status
Alamat Rumah	Mixture of alphabets, numbers, and special characters	10, Jalan Ali	System accept the home address
Bandar	Alphabets	Ipoh	System accept the home city
	Number	123	System reject the home city
	Special character	Johor @ Bahru	
Negeri	Values from the available selection 1: Johor 2: Kedah 3: Kelantan 4: Melaka 5: Negeri Sembilan 6: Pahang 7: Pulau Pinang 8: Sabah 9: Sarawak 10: Selangor 11: Terengganu 12: WP Kuala Lumpur 13: WP Labuan 14: WP Putrajaya 15: Perak 16: Perlis	1	System accept the home state
Poskod	5 numbers	36000	System accept the home postcode
	Value consisting alphabet, number, or special characters	3@a0	System reject the home postcode
Jawatan	Mixture of alphabets, numbers, and special characters	Kerani	System accept the position
Gred Jawatan	Mixture of alphabets, numbers, and special characters	A23	System accept the position grade
PF No.	Number	1001	System accept the pf number
	Negative number or decimal, or alphabet	-1@a8.6	System reject the pf number

Alamat Pejabat	Mixture of alphabets, numbers, and special characters	10, Jalan Ali	System accept the office address
Bandar	Alphabets	Ipoh	System accept the home city
	Number	123	System reject the home city
	Special character	Johor @ Bahru	
Negeri	Values from the available selection 1: Johor 2: Kedah 3: Kelantan 4: Melaka 5: Negeri Sembilan 6: Pahang 7: Pulau Pinang 8: Sabah 9: Sarawak 10: Selangor 11: Terengganu 12: WP Kuala Lumpur 13: WP Labuan 14: WP Putrajaya 15: Perak 16: Perlis	1	System accept the home state
Poskod	5 numbers	36000	System accept the home postcode
	Value consisting alphabet or special characters	3@a0	System reject the home postcode
No. Telefon Fax	10 or 11 digit number	12345678901	System accept the fax number
	Value consisting alphabet, number, or special characters	abc	System reject the fax number
No. Telefon Bimbit	10 or 11 digit number	12345678901	System accept the phone number
	Value consisting alphabet, number, or special characters	abc	System reject the phone number
No. Telefon Rumah	9 digit number	123456789	System accept the home number
	Value consisting alphabet, number, or special characters	abc	System reject the home number

Gaji Sebulan	Positive number or decimal	3500.50	System accept the monthly salary
	Alphabet or negative number or decimal	-321a.60	System reject the monthly salary

8.7.2 Heir Information Form

This form appears in two parts in the system:

- Member Application Form: Heir Information (Maklumat Keluarga dan Pewaris)
- Update Profile Form: Heir Information (Maklumat Keluarga dan Pewaris)

Table 8.7.2 details the fields present in the heir information form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.2 Table of equivalence class for heir information form

Field Name	Equivalence Class	Representative (BVA)	Expected Result
Nama	Name consists of alphabet and symbols such as '/', '"', '@' and ''	Ali bin Abu	System accept the name
	Name consists of number	1234	System reject the name
No. Kad Pengenalan	Numbers with format of "xxxxxx-xx-xxxx"	040605-10-1587	System accept the ic
	Numbers that does not follow the format of "xxxxxx-xx-xxxx"	040605101587	System reject the ic
	Alphabet	ABC	
Hubungan	Values from the available selections 1: Suami Isteri 2: Anak 3: Keturunan 4: Orang Tua 5: Saudara kandung 6: Lain-lain	1	System accept the heir relation with member

8.7.3 Fee and Contribution Form

This form appears once in the system:

- Member Application Form: Fee and Contribution (Yuran dan Sumbangan)

Table 8.7.3 details the fields present in the fee and contribution form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.3 Table of equivalence class for fee and contribution form

Field Name	Equivalence Class	Representative (BVA)	Expected Result
Fee Masuk	Positive decimal greater than the minimum value	50.00	Accepted by the system
	Value lesser than the minimum value	20.00	Rejected by the system
	Alphabet	-10a.50	
Modal Syer	Positive decimal greater than the minimum value	50.00	Accepted by the system
	Value lesser than the minimum value	20.00	Rejected by the system
	Alphabet	-10a.50	
Modal Yuran	Positive decimal greater than the minimum value	50.00	Accepted by the system
	Value lesser than the minimum value	20.00	Rejected by the system
	Alphabet	-10a.50	
Wang Deposit Anggota	Positive decimal greater than the minimum value	50.00	Accepted by the system
	Value lesser than the minimum value	-10	Rejected by the system
	Alphabet	-10a.50	
Sumbangan Tabung Kebajikan (Al-Abrar)	Positive decimal greater than the minimum value	50.00	Accepted by the system
	Value lesser than the minimum value	-10	Rejected by the system
	Alphabet	-10a.50	
Simpanan Tetap	Positive decimal greater than the minimum value	50.00	Accepted by the system
	Value lesser than the minimum value	-10	Rejected by the system
	Alphabet	-10a.50	

Lain-lain	Positive decimal greater than the minimum value	50.00	Accepted by the system
	Value lesser than the minimum value	-10	Rejected by the system
	Alphabet	-10a.50	

8.7.4 Salary Deduction Form

This form appears in one part in the system:

- Update Member Profile: Salary Deduction Information (Potongan Gaji)

Table 8.7.4 details the fields present in the salary deduction form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.2 Table of equivalence class for salary deduction form

Field Name	Equivalence Class	Representative (BVA)	Expected Result
Tabung Anggota	Positive decimal greater than the minimum value	50.00	Accepted by the system
	Value lesser than the minimum value	-10	Rejected by the system
	Alphabet	-10a.50	
Simpanan Tetap	Positive decimal greater than the minimum value	50.00	Accepted by the system
	Value lesser than the minimum value	-10	Rejected by the system
	Alphabet	-10a.50	

8.7.5 Loan Application Form

This form appears once in the system in the member interface loan application form (Mohon Pinjaman).

Table 8.7.5 details the fields present in the loan application form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.5 Table of equivalence class for loan application form

Field Name	Equivalence Class	Representative (BVA)	Expected Result

Jenis Pembiayaan	Values from the available selection 1: Al-Bai 2: Al-Innah 3: Baik Pulih Kenderaan 4: Road Tax dan Insurans 5: Khas 6: Karnival Musim Istimewa 7: Al-Qadrul Hassan	1	Accepted by the system
Amaun Dipohon	Positive decimal less than or equal to the maximum applicable loan for the selected loan type	1000.00	Accepted by the system
	Positive decimal greater than the maximum applicable loan for the selected loan type	9999999999.99	Rejected by the system
	Negative decimal or alphabet	-10a.50	
Tempoh Pembiayaan	Positive integer less or equal to than the maximum repayment period	6	Accepted by the system
	Negative integer or alphabet	-10a	Rejected by the system
Nama Bank/ Cawangan	Values from the available selections 1: Affin Bank 2: Agrobank 3: Al Rajhi Bank Malaysia 4: Alliance Bank 5: AmBank 6: Bank Islam 7: Bank Muamalat 8: Bank Rakyat 9: BSN 10: CIMB 11: Citibank Malaysia 12: Co-op Bank Pertama 13: Hong Leong Bank 14: HSBC Malaysia 15: Maybank 16: MBSB Bank 17: OCBC Malaysia 18: Public Bank 19: RHB 20: Standard Chartered Malaysia 21: UOB Malaysia	1	Accepted by the system

Bank Account	Positive number	1234567890	Accepted by the system
	Alphabet or special characters	-103486a	Rejected by the system
Gaji Kasar Bulanan	Positive decimal	3000.00	Accepted by the system
	Negative decimal or alphabet	-3000a.50	Rejected by the system
Gaji Bersih Bulanan	Positive decimal	3000.00	Accepted by the system
	Negative decimal or alphabet	-3000a.50	Rejected by the system
Tandatangan	Filetype is .png, .jpg, .jpeg	image.jpg	Accepted by the system
	Filetype is not .png, .jpg, .jpeg	image.pdf	Rejected by the system

8.7.6 Feedback Form

This form appears once in the system in the member interface, feedback form (Maklum Balas).

Table 8.7.6 details the fields present in the feedback form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.2 Table of equivalence class for feedback form

Field Name	Equivalence Class	Representative (BVA)	Expected Result
Jenis Maklum Balas	Values from the available selection 1: Cadangan 2: Masalah	1	Accepted by the system
Maklumat Maklum Balas	Mixture of alphabets, numbers, and special characters	Warna biru bukan warna kegemanaran saya.	System accept the feedback content

8.7.7 Member Termination Application Form

This form appears once in the system in the member interface, member termination form (Berhenti Menjadi Anggota).

Table 8.7.7 details the fields present in the member termination application form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.7 Table of equivalence class for member termination form

Field Name	Equivalence Class	Representative (BVA)	Expected Result
Sebab Berhenti Menjadi Anggota	Mixture of alphabets, numbers, and special characters	Kami sekeluarga berpindah ke negeri lain.	Accepted by the system

8.7.8 Member Application Approval Form

This form appears once in the system in the admin interface, member application approval (Permohonan Anggota).

Table 8.7.8 details the fields present in the member application approval form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.8 Table of equivalence class for member application approval form

Field Name	Equivalence Class	Representative (BVA)	Expected Result
No Anggota	Numbers	1001	Accepted by the system
	Value consisting alphabet or special characters	1@a3	Rejected by the system

8.7.9 Update Policies Form

This form appears once in the system in the admin interface, updating policies (Kemaskini Polisi).

Table 8.7.9 details the fields present in the update policies form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.9 Table of equivalence class for update policies form

Field Name	Equivalence Class	Representative (BVA)	Expected Result
Fee Masuk	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Fee Masuk Anggota yang Pernah	Positive Integer	50	Accepted by the system

Menjadi Anggota	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Modah Syer Minimum	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Modal Yuran Minimum	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Wang Deposit Anggota Minimum	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Sumbangan Tabung Kebajikan Minimum	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Simpanan Tetap Minimum	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Lain-lain	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Modal Syer Minimum Peminjam	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the

	Non number characters	abc@	system
Tempoh Ansuran Maksima	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Pembayaran Maksima	Positive Integer	50000	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Kadar Keuntungan	Positive Decimal	4.20	Accepted by the system
	Negative Decimal	-10	Rejected by the system
	Non number characters	abc@	
Simpanan Tetap	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Minimum Potongan Gaji Simpanan Tetap	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Sumbangan Tabung Kebajikan	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	
Minimum Potongan Gaji Sumbangan Tabung Kebajikan	Positive Integer	50	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	

Hari Tutup (Cut-Off Day)	Positive Integer	25	Accepted by the system
	Negative Integer	-10	Rejected by the system
	Non number characters	abc@	

8.7.10 Upload Banner Form

This form appears once in the system in the admin interface, update banner (Kemaskini Iklan).

Table 8.7.10 details the fields present in the upload banner form and the equivalence class of the accepted and rejected values for the fields.

Table 8.7.10 Table of equivalence class for upload banner form

Field Name	Equivalence Class	Representative (BVA)	Expected Result
Nama Iklan Baru	Mixture of alphabets, numbers, and special characters	Iklan Baru.	Accepted by the system
Muat Naik Iklan Baru	Filetype is .png, .jpg, .jpeg	image.jpg	Accepted by the system
	Filetype is not .png, .jpg, .jpeg	image.pdf	Rejected by the system

9. Traceability Matrix

Table 9.1 shows the traceability matrix of the system. It extends from the traceability section by including cross reference to sequence diagrams and test cases.
